

Walker County, Texas

*Comprehensive Annual Financial Report
For the Year Ended September 30, 2014*

**Shown on the cover and copied with permission of the artist,
Mr. Joseph Polley Paine, is a reproduction of a lithograph
he did for Huntsville's Bicentennial in 1976.**

JOSEPH POLLEY PAINE'S "Early Architecture of Huntsville"
is what the artist calls "Documentary art".

Across the top is a reproduction of Bollaert's sketch of Huntsville made in December, 1843. Englishman William Bollaert came to Texas, at General Sam Houston's invitation, to study the possibility of attracting immigrants. Bollaert's diary of his visit to Huntsville read, "Three miles brought us to Huntsville, situated on a pine height. This town was commenced in 1836, but made little progress until 1842 when Mr. MacDonald gave an impetus to building. On entering the town is observed a planter's exchange, Gibbs Grocery, Huntsville Hotel... Mr. MacDonald, besides a very large and comfortable residence, has built a brick store, the upper part devoted to a Masonic Lodge. A large brick building for girls and boys schools is now building and many other improvements going on."

Next in the artwork is the Cumberland Presbyterian Church erected in 1839. The Christian congregation purchased the property in 1868.

The third structure is MacDonald's (sometimes spelled McDonald's) brick store and Masonic Hall. It was redrawn from an 1844 map of the city.

The Huntsville Academy, also from the map of 1844, is right of the tower. The structure at the left is the third building used as the Walker County Courthouse. This building in 1888, was razed by fire.

The large building facing the right portion of the drawing is the original building in the state prison system. The building, along with several others in Huntsville, was "remodeled" or "modernized" and the tower was removed. This building was revamped in 1942.

At the right is Andrews Female College, a Methodist institution built in 1852, which later became public school property in 1879 and a frame building was put on the same site.

Built in the 1840's, Henderson Yoakum's home at Shepherd's Valley was where Yoakum wrote his "History of Texas." The history was published in 1855. Dog run style houses had a hall through the center 20 feet wide. On each side of the open hall were two 20 by 20 foot rooms. The sills of the hand-hewn logs were sixty feet long and three feet thick.

Now known as Old Main, the Sam Houston Normal Institute was dedicated in 1890. (Lost to fire on February 12, 1982)

The Austin College building behind the Normal Institute was dedicated in 1851 as a Presbyterian school. The Bell Tower shown in Mr. Paine's Lithograph is now at the Austin College in Sherman, Texas and is rung at graduation there. This building was the main structure at Sam Houston Normal Institute from 1879 to 1890.

The final structure in the Bicentennial work is Sam Houston's home, "Woodlands", which was built in 1847.

Artist Paine was assisted in his research by Mrs. Josephine Bush, keeper of the books in the Thompson Room of Sam Houston State University Library.

WALKER COUNTY AUDITOR

1301 Sam Houston Avenue Room 206

Huntsville, Texas 77320

(936) 436-4948

March 24, 2015

The Honorable District Judges of the 12th and 278th Districts
The Honorable Commissioners' Court
Walker County, Texas

Gentlemen:

The Comprehensive Annual Financial Report of Walker County, Texas, for the year ended September 30, 2014, is submitted herewith. This report was prepared in accordance with generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board and is in compliance with Vernon's Texas Codes Annotated (VTCA) Local Government Code. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation including all disclosures rests with the County. I believe the data as presented is accurate in all material aspects and presented in a manner designed to fairly set forth the financial position and results of operations of Walker County as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain the maximum understanding of the County's financial activity have been included.

Walker County's financial statements have been audited by Hereford, Lynch, Sellars & Kirkham, P.C. out of their Conroe office. The goal of the independent audit was to provide reasonable assurance that the financial statements of Walker County for the year ended September 30, 2014 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based on the audit, that there was a reasonable basis for rendering an unmodified opinion that Walker County's financial statements for the fiscal year ended September 30, 2014 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of Walker County was part of a broader, federally and/or state mandated "Single Audit" designed to meet the special needs of federal and/or state grantor agencies. The standards governing Single Audits engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal control and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal and/or state awards. The Single Audit report is in conformity with the provisions of the Single Audit Act Amendments of 1996, the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations and the Texas Uniform Grant Management Standards*. Information related to this single audit, including a Schedule of Expenditures of Federal and/or State Awards, the independent auditors' reports on internal controls and compliance with applicable laws and regulations, and a Schedule of Findings are included in this report. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Walker County's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

Walker County, created in 1846, covers approximately 810 square miles in the rolling hills of the East Texas Pineywoods and according to 2012 census serves a population of approximately 68,408. Walker County is located approximately 60 miles north of metropolitan Houston and 165 miles south of metropolitan Dallas/Fort Worth. Interstate 45 runs through the County.

The financial reporting entity of Walker County includes all the funds of the County. The County provides a full range of services including police protection, legal and judicial services, and maintenance of roads and bridges. The transactions of all elected county, district and precinct officers are also included. Although these officials are responsible solely to the electorate, the officials receive funding for the operation of their departments from the Commissioners' Court, which has discretion over those expenditures.

The County operates under the Commissioners' Court form of elected government and is a political subdivision of the State of Texas. The County is empowered to levy a property tax on both real and personal property located within its boundaries. Policy and decision making authority are vested in the Commissioners' Court, which consists of the County Judge and four Commissioners. This Court is responsible for adopting the budget, appointing committees, and overseeing the general business of the County. The Commissioners, as well as the Judge, are elected to four-year terms with alternate elections every two years so that the court will contain senior members.

In addition to law enforcement, judicial, and infrastructure expenditures, Walker County funds other services. Additional services include fire protection and comprehensive 911 dispatch operations, which are provided by interlocal agreements between Walker County and the City of Huntsville. Volunteer fire departments within the County also receive financial support from the County. In addition, Emergency Medical Services are provided.

Local Economic Condition and Outlook

Walker County provides access to the highly popular Sam Houston National Forest where rich vegetation and numerous lakes allow visitors to participate in activities such as fishing, camping, and hiking. Also, Walker County visitors and residents alike enjoy the scenery provided by the world's tallest statue of an American hero; the 67-foot high replica of Sam Houston known as *A Tribute to Courage*. Meanwhile, indoor entertainment can be found at the Sam Houston Memorial Museum, the Texas Prison Museum, and a variety of cultural and sporting events offered by Sam Houston State University, in Huntsville.

The county seat is Huntsville, Texas. Two other municipalities located within the County include the City of New Waverly and the City of Riverside. Walker County has abundant wildlife and contains approximately 54,000 acres of the Sam Houston National Forest within its boundaries. Lake Livingston, a popular attraction, borders the County's eastern boundary while Lake Conroe rests on the southern boundary. The rural setting, with access to the outdoors, recreational facilities, and urban amenities, provides Walker County citizens and tourists with much enjoyment year round.

Walker County's estimated population is 68,817. State and local government are significant sources of employment for this area while additional hiring focuses on agribusiness, forest production, and timber industries due to the vast number of natural resources available.

The unemployment rate in the County for 2014 was 5.1%, compared with the state unemployment rate of 5.0% and national unemployment rate of 5.7%. This county rate compares to 6.6%, for the prior year according to information provided by the Texas Workforce Commission. Walker County has traditionally had very stable employment, due primarily to an economy based on employment at Sam Houston State University and Texas Department of Criminal Justice. The State's prison system is headquartered in Walker County with seven major facilities housing an estimated 14,086 inmates. Sam Houston State

University, also located in Walker County, reported an enrollment of approximately 19,719 students for the fall of 2014 as compared to 19,214 for 2013.

A favorable economic outlook is due to the steady number of building permits issued locally and the associated construction values for residential and commercial development along with a stable enrollment rate at Sam Houston State University. These factors along with Walker County's rural setting, its proximity to major metropolitan areas, and a historically stable job market should contribute to its continued growth.

The H.E.A.R.T.S Veteran's Museum of Texas, a local 501 c(3) organization, has built a museum collection over the last 15 years to commemorate and honor U.S. military veterans from all branches of service. In order to provide a facility to house the collection, the State Legislature authorized an allocation to Walker County through the General Land Office. The 12,500 sq. ft. facility is adjacent to the County Storm Shelter project located on a five acre site located at 445 SH 75 S, in Huntsville, Texas.

Long-term financial planning. Walker County issued \$20,000,000 in Certificates of Obligation for construction of a new jail facility. This followed several years of planning and discussion. A tax rate increase was necessary to pay the debt. The jail was finished and occupied in May 2014.

Monies are also included in the budget for continuing improvements to bridges and water way crossings. The County intends to continue with improving roads and bridges. The Commissioners in a joint effort over the past several years have been able to procure equipment necessary to seal-coat roads with high traffic and high maintenance needs. This has improved the accessibility of property and decreased labor-intensive maintenance in these areas. The budget allocations for the last several years included funds to supplement the road maintenance funds.

Walker County continues to support the rural water supply programs throughout the County, which have greatly enhanced services to rural county residents. These projects are funded through federal community development pass-through grants.

Emergency planning and public safety. Walker County continues its focus on enhanced service related to public safety and a greater level of preparedness for emergencies. An emergency notification system (Code Red) was purchased in previous years and the public safety radio system updated, enhancing interoperability for all public safety/emergency management. The Code Red system allows for telephone notification of citizens about situations that may affect public safety. The County Judge acts as the Director of the Office of Emergency Management (OEM). He is assisted by an Emergency Management Coordinator, a Deputy Coordinator, a volunteer Director of Communications and a Donations Manager. The Emergency Operations Center (EOC), a joint operations center with the Cities of Huntsville, New Waverly and Riverside has been upgraded in many areas. The communications area of the EOC is at its highest level of inter-operability. Walker County EOC has a radio tower and radio system for contact with not only local jurisdictions but also state agencies. Walker County has adopted the NIMS system for running the EOC during an emergency. The Walker County Sheriff's Office has been able to remain above the State average on crime clearance. In prior years, the County received a Homeland Security grant to get fiber communication between the law enforcement facilities/agencies. The City of Huntsville participated with the County in this endeavor as did Sam Houston State University.

Walker County operates a shelter that was funded from FEMA and ORCA monies in previous years. Walker County continues to maintain and update information to Walker County maps for use by emergency medical services, fire departments, and communications providers among others. As this project progresses, the citizens of Walker County are expected to see more efficient emergency services due to the standardized addressing system as well as have access to updated and more accurate maps.

Internal Controls. Internal controls are management tools designed to help management meet its responsibilities and achieve its objectives. Basic objectives include meeting requirements of the offices as set out in state statute with effectiveness and efficiency (achieving the purpose of the department and county and making good use of the resources entrusted to Walker County elected officials and department heads). While management is primarily responsible for internal controls, the governing body plays a role in assisting management in fulfilling its duties. Commissioners Court, the governing body of the County, has adopted policies and procedures to aid in this process. An internal audit function is funded in the budget and regular internal audits are conducted with the focus on internal controls put in place by management/elected officials of the various departments of the County. Reports are regularly presented to the elected officials and /department heads and Commissioners Court. Inherent limitations are associated with internal controls. Cost considerations often prevent management from installing the most desirable system including budget limitations not allowing for the desired segregation of duties; internal controls are potentially subject to management and employee override; and the risk of collusion exists. In County government another limitation is that most department heads are elected officials and state statute grants limited authority to the governing body to direct procedures and operations of an elected official.

Financial Polices and impact on current period financial statements. The County has the policy of funding all on-going costs with revenues generated in the current year. During the budget process each year fund balances are reviewed and generally one-time and capital costs are funded from available funds (fund balance). Contingency is also historically funded from available funds. The budgeted collections rate in the budget for current property taxes in past years has been budgeted in the 94% - 96% range. Collections have historically been in the 95% - 97% range. For the past several years, collections have been budgeted at 94% due to the volatile economy; however collections have remained stable. In the fiscal year beginning October 1, 2013, as in previous years, one-time costs were funded with funds available in fund balance. There was a tax increase in 2012 and 2013. There was no tax increase in 2014. The total budget for FY 14/15, that began October 1, 2014 is \$32,927,065 compared to the original budget of \$30,494,793 for the FY 13/14 year covered by this report, an increase of \$2,432,272.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Walker County for its comprehensive annual financial report for the fiscal year ended September 30, 2013. This was the eighteenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements. The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the County Auditor's Office. I would like to express my appreciation to everyone in the office for their loyal and dedicated service. I would also like to commend the members of the Commissioners' Court for conducting the financial operations of Walker County in a responsible manner.

Respectfully submitted,

Patricia Allen, CPA, CGFM

INDEPENDENT AUDITORS' REPORT

Commissioners' Court
Walker County, Texas
1100 University Avenue
Huntsville, Texas 77340

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Walker County (County), as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessments of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Walker County, as of September 30, 2014, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules, and schedules of Funding Progress – pension plan and OPEB plan, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Walker County's basic financial statements. The introductory section, combining statements budget comparison schedules, and capital assets schedules, as supplementary information, statistical section, and compliance section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of state awards is presented for purposes of additional analysis as required by Texas Uniform Grant Management Standards and is also not a required part of the basic financial statements.

The combining statements and budget comparison schedules, and capital assets schedules, as supplementary information and the schedule of expenditures of state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements and budget comparison schedules, and capital assets schedules, as supplementary information, and the schedule of expenditures of state awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 24, 2015, on our consideration of Walker County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Walker County's internal control over financial reporting and compliance.

Respectfully,

Hereford, Lynch, Sellars & Kirkham, P.C.

Management Discussion and Analysis

The following discussion and analysis of Walker County's financial performance provides an overview of the County's financial activities for the year ended September 30, 2014. Please read this discussion and analysis in conjunction with the transmittal letter at the front of this report and the County's financial statements, which follow this section. Walker County has prepared this financial report in compliance with the Governmental Accounting Standards Board (GASB) Statement No. 34 and GASB 54 and amendments thereafter.

Financial Highlights

- On a government-wide basis, the assets of Walker County exceeded its liabilities at the close of its most recent fiscal year by \$16,575,920 (net position). Of this amount \$5,487,590 may be used to meet the ongoing obligations to citizens and creditors. The balance is invested in capital assets and restricted for debt.
- On a government-wide basis for governmental activities, the County had expenses net of program revenue of \$20,059,677. General revenues of \$20,309,358 (Exhibit A-2) were \$249,681 more than expenses net of program revenue. An accrual of \$1,518,451 for postemployment benefits is included in the expenses. This is the fifth year the County has recorded this liability resulting in a total of \$6,795,020 recorded as the net OPEB obligation at the end of the fiscal year.
- The General Fund, on a current financial resource basis (fund level), reported revenues over expenditures and other financing sources (uses) of \$1,657,278 as compared to a planned reduction of \$2,094,448 (Exhibits A-5 and B-1), the result primarily of decreased spending.
- As of September 30, 2014, unassigned fund balance in the General Fund was \$5,006,369. The total unassigned Fund Balance for the prior year was \$3,887,335.
- Unassigned Fund balance as a percentage of expenditures for the General Fund is 30%, an amount that exceeds the minimum requirement goal (16.67%) set by Commissioners' Court. The adopted budget for FY 2015 included use of fund balance for one-time expenditures. The amount included in the FY 2015 budget is classified as Fund Balance Assigned - One time allocation in the financial report and is not included in the Unassigned Fund Balance number mentioned above. See Note B and Note L for a discussion of the Fund Balance classifications.

Overview of the Financial Statements

This discussion and analysis narrative is intended to serve as an introduction to Walker County's basic financial statements. The County's Comprehensive Annual Financial Report consists of five sections: introductory, financial, supplementary, statistical, and compliance. The financial section of this report has five components - independent auditors' report, management's discussion and analysis (this narrative), the basic financial statements, required supplementary information, and combining statements and budget comparisons as supplementary information.

The basic financial statements include: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

The primary focus of these financial statements is on both the County as a whole (government-wide financial statements) and individual parts of the County (fund financial statements). The government-wide financial statements provide both long-term and short-term information about the County's overall financial status. The fund financial statements, on the other hand, focus on individual parts of the County and provide more detail of the County's operations than the government-wide financial statements.

Government-wide Financial Statements. The government-wide financial statements report information about the County as a whole using accounting methods similar to those used by private-sector companies. The statement of net position and the statement of activities, which are the government-wide statements, report information about the County as a whole and about its activities in a way that helps answer whether the County is in a better or worse financial position as a result of the current year's activity. The statement of net position presents information on all of the assets and liabilities of Walker County, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of

whether the financial condition of Walker County is improving or deteriorating. Other non-financial factors, such as the County's property tax base and the condition of the County's infrastructure, need to be considered to assess the overall health of the County. These statements include all assets and liabilities on the accrual basis of accounting.

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows (cash is received or paid). Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave.) Again, this reflects the accrual method of accounting, rather than the modified accrual basis that is used in the fund level financial statements.

Government-wide financial statements of a government distinguish functions that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business activities). Walker County has no business type activities. Services provided by Walker County reported as governmental activities include general government, financial, judicial, public safety, correction and rehabilitation, health and welfare, culture and education, public transportation, and interest and fiscal charges. Walker County financial statements include only the primary government and do not include other governments or component units such as a county hospital or school district.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Walker County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Traditional users of government financial statements will find the fund financial statement presentation more familiar. The fund financial statements provide more detailed information about the County's most significant funds, rather than the County as a whole. Funds of the County are divided into two categories: governmental funds and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions as governmental activities in the government-wide financial statement. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financing requirements. Walker County's basic services are included in the governmental funds. The governmental funds financial statements provide a detailed short-term view that helps readers of the financial statements determine the availability of financial resources to fund the County's major programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Walker County's report includes thirty-two individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, Jail Project capital project fund, grants and contracts fund, road and bridge fund, and the EMS fund which are considered to be major funds. Data from twenty-five other funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements beginning on page 70.

Walker County adopts an annual appropriated budget for all of its governmental funds. Budgetary comparison statements have been provided for the general fund and other funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found beginning on page 24.

Proprietary Funds. There are two types of proprietary funds, enterprise funds and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Walker County does not currently have any proprietary funds.

Internal service funds are used by some state and local governments to accumulate and allocate costs internally among the unit's various functions. They may be used for such things as a central garage or for its management of information systems. Walker County does not use internal service funds, but rather accounts for costs in the fund where the activity or program is reported.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support Walker County programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The County is the trustee, or fiduciary, for assets which are held by the County as an agent, pending distribution to authorized recipients. The County currently maintains agency funds only. As an example, the County Clerk and District Clerk each function in a fiduciary capacity. These assets are reported in a separate statement of fiduciary assets and liabilities (Exhibit C-30).

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 32 to 49 of this report.

Required Supplementary Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning Walker County. The County adopts an annual budget for its General Fund and special revenue funds including its Road and Bridge Fund. Required supplementary information begins on page 51 of this report. Budgetary comparison schedules have been prepared to demonstrate compliance with the budget for the General Fund (Exhibit B-1), the Grants and Contracts Fund (Exhibit B-2), Road and Bridge Fund (Exhibit B-3), and EMS Fund (Exhibit B-4). The County also presents a schedule of funding progress for its pension plan and its OPEB plan as required (page 65). Information for the Non-Major Governmental Funds begins on page 70.

Government-wide Financial Analysis

Below is condensed financial information for the fiscal year 2014 with comparative data for 2013. The following schedule focuses on the net position of the County as a whole and gives data as of September 30th (the County's fiscal year end date) of each year.

WALKER COUNTY, TEXAS NET POSITION

	Governmental Activities					
	2014		2013		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%
Cash, Cash Equivalents, & Investments	\$ 12,569,758	28	\$ 16,512,382	36	\$ (3,942,624)	(24)
Receivables, Prepaids, & Deferred Charges	4,006,317	9	4,230,948	9	(224,631)	(5)
Capital Assets, Net of Depreciation	28,655,524	63	25,150,832	55	3,504,692	14
Total Assets	45,231,599	100	45,894,162	100	(662,563)	
Other Liabilities	4,049,283	14	5,658,490	19	(1,609,207)	(28)
Long-term Liabilities Outstanding	24,606,396	86	23,909,433	81	696,963	3
Total Liabilities	28,655,679	100	29,567,923	100	(912,244)	
Invested in Capital Assets, net of Debt	11,004,750	66	12,086,797	74	(1,082,047)	(9)
Restricted	83,580	1	116,489	1	(32,909)	(28)
Unrestricted	5,487,590	33	4,122,953	25	1,364,637	33
Total Net Position	\$ 16,575,920	100	\$ 16,326,239	100	\$ 249,681	

As mentioned earlier, net position may serve over time as a useful indicator of a government's financial position. Assets exceed liabilities by \$16,575,920 at September 30, 2014 as compared to \$16,326,239 at September 30, 2013. Of the County's net position at the fiscal year end, 66% is investment in capital assets (land, buildings, machinery and equipment) less any related debt used to acquire those assets that is still outstanding. Walker County uses these capital assets to provide services to citizens; consequently these assets are not available for future spending. Although investments in capital assets is reported net of debt, it should be noted that the resources to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the assets at fiscal year end may represent resources that are subject to restrictions on how they may be used. Restricted net position of the County was \$83,580 for debt service. Unrestricted assets of \$5,487,590 (33% of total net position) may be used to meet the government's ongoing obligations to citizens and creditors.

Government-wide Activities. Net position of Walker County on a government-wide view increased by \$249,681 for the current year. Included in the number is \$1,518,451 for postemployment benefits. Key elements of increase are as follows.

WALKER COUNTY, TEXAS' CHANGES IN NET POSITION

The following graphic presentation presents expenditures by function for fiscal year 2014 for governmental activities (government-wide).

Financial Analysis of the County's Funds

As noted earlier, Walker County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Walker County maintains several governmental funds.

Governmental Funds - The focus of the County's governmental funds is to provide information of near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the County's net resources available for spending at the end of the fiscal year.

The County's governmental funds reflect a combined ending fund balance of \$12,396,665 (Exhibit A-3) compared to \$14,900,378 in the prior year. There was a \$20,000,000 debt issue during the fiscal year 2012 for construction of a jail. The jail was completed during the fiscal year ending September 30, 2014. During the fiscal year ended, September 30, 2014, approximately \$5,395,626 was spent on the construction of the jail, resulting in the decrease in the combined governmental fund balance.

As required by GASB Statement 54, funds balances are classified as restricted, committed, assigned or unassigned. Unassigned fund balance as of September 30, 2014 is \$5,006,369 compared to \$3,887,335 in the fiscal year ending September 30, 2013. This amount is available for day-to-day operations of the County. The General Fund showed an increase of \$1,657,278. Debt Service Fund showed an increase of \$34,451. Road and Bridge Fund showed an increase of \$383,133. EMS fund shows an increase of \$578,670.

One measure of liquidity is to compare fund balance to total fund expenditures. The unassigned fund balance in the General Fund is approximately 30% of General Fund expenditures. Property tax collections exceeded budget. There was a two cent (\$.02) tax increase over the effective tax rate for the year ending September 30, 2014. The tax increase was primarily for operations of the new jail. Seven jailers were added as well as increased insurance costs for the building. Because the jail was opened during the fiscal year, there was not a full year of operating costs budgeted. Sales tax revenue came in at \$562,639 over budget due to increased economic activity and partially as a result of changes in prices. Increased sales and upward price changes result in increased sales tax. The Fiscal year 2015 (current budget year) continues to see increases in sales tax collections over what was collected in FY 2014. In total in the General Fund, revenues exceeded budget by

\$1,595,264. Monies included in the General Fund for projects that were not spent during the fiscal year total \$836,375. These project monies are carried forward to the next budget year (FY 2015) for these projects. Vacancies and unfilled positions also resulted in expenditures less than budgeted.

There was not a significant increase in Fund Balance in the Debt Service Fund. The increase is 34,531.

The Capital Project – Jail Construction Fund shows a fund balance of \$975,602 at year end, a decrease of \$5,393,227. These funds were used for the construction of the jail. The jail was completed and occupied in May 2014. Fund balance remaining at fiscal year end is \$975,602. These monies carried forward to the 2015 fiscal year. Currently the county is installing a voice/video system for communication from the jail to the Courts.

Walker County continues to apply for and receive various grants. At year end accruals and deferred revenues are booked as appropriate. The \$30,870 reduction in fund balance is the result of county grant match funds that were on hand at the beginning of the year being spent during the fiscal year ended September 30, 2014.

The fund balance of the Road and Bridge Fund, a fund used to account for the costs of providing road maintenance to the County, is \$1,391,850 up from \$1,008,717 in the prior fiscal year end. Road and Bridge Fund expenditures total \$4,606,788 compared to \$4,679,062 in FY 2013. The unspent funds continue to be committed for road maintenance in future years. Revenues and other financing sources total \$4,989,921 netting a \$383,133 increase in fund balance. Funds received from the U.S. Forest Service increased over budget by \$150,232. Revenues received from fines increased, as a result of increased activity from the weigh station located on Interstate 45. Vacancies resulted in approximately \$217,000 of fund balance.

The Walker County EMS fund has a fund balance of \$1,125,825 at year end, an increase of \$578,670. EMS revenues exceeded budget by \$301,760, a result of increased collections for service calls and expenditures were \$139,807 less than budget, primarily in the salaries and benefits category.

General Fund Budgetary Highlights

This is the fourth year of reporting under the requirements of GASB 54. Funds previously budgeted in Other Governmental Funds and the Projects Fund are now reported in the General Fund. The Projects budget items are adopted by Commissioners' Court as a multi-year budget and the project budget items do not lapse at fiscal year end. The remaining funds from projects approved in prior years that have not completed are reflected as amendments to the original budget for the current year. The portion of fund balance that was committed for projects increased from \$862,695 in the prior fiscal year to \$1,054,938 at the end of the fiscal year ended September 30, 2014.

The Original Budget budgeted decrease was a planned reduction of fund balance for one-time capital expenditures, budgeted projects, contingency line items and a transfer to the Road and Bridge Fund for special projects. It is the policy of the County to maintain the fund balance at 16% to 24% (2 to 3 months) of the operating budget. County policy requires that the fund balance not be drawn down to fund on-going operating costs. The actual difference between revenues and expenditures was an increase to fund balance in the amount of \$1,657,728.

Differences between the original expenditure budget and final amended expenditure budget are a result primarily of grants and state funds received after adoption of the budget. A budgetary comparison for the General Fund can be found in the required supplementary information section beginning on page 51. Increases to the revenue budget total \$131,865. The increase includes intergovernmental transfers primarily from the state in the amount of \$123,168 and \$8,697 and miscellaneous funds. Intergovernmental funds in the amount of \$44,000 were received for elections held for other governmental jurisdictions with the balance being received from the state. The total expenditure budget increased by offsetting amounts. Transfers from the contingency funds are reflected in the appropriate accounts as the transfers are approved by Commissioners Court.

Actual General Fund revenues exceeded the amended budgeted General Fund revenues and departmental expenditures were less than the amended budget during the year ended September 30, 2014. Of the total projects budgeted through September 30, 2014, there are remaining funds of \$1,054,938 for expenditures in future years.

Capital Assets and Debt Administration

Capital Assets. Walker County's investment in capital assets on a government-wide basis as of September 30, 2014 is \$28,655,524 (net of accumulated depreciation). Included in this total is \$680,552 in land. Investment in capital assets includes land, buildings, improvements, machinery and equipment, and bridges. As required by GASB Statement 34, depreciation is included for all depreciable assets on the government-wide statements.

WALKER COUNTY, TEXAS' CAPITAL ASSETS (net of depreciation)

	Governmental Activities					
	2014		2013		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%
Land	\$ 680,552	2	\$ 680,552	3	\$ -	-
Construction in Progress	-	-	13,669,169	54	(13,669,169)	(100)
Vehicles	1,096,945	4	1,260,752	5	(163,807)	(13)
Office Furniture and Fixtures	518,234	2	611,047	2	(92,813)	(15)

Buildings, Facilities, and Equipment	24,653,819	86	7,973,468	32	16,680,351	209
Totals	\$ 28,655,524	100	\$ 25,150,832	100	\$ 3,504,692	

Additional information on the County's capital assets can be found in Note H and in the supplementary information on Exhibits 32-34 of this report.

Long-term Debt. In June of 2012, a certificate of obligation in the amount of \$20,000,000 was issued for the construction of a county jail. At the time of that debt issue, the County was debt free. The debt issued for the jail construction is to be paid off over a 20 year period. County policy requires that the term of payment must in all cases be less than the expected life of the asset. Debt outstanding at September 30, 2014 is \$18,515,000.

All debt is backed by the full faith and credit of the government, meaning that the County has pledged to levy a property tax sufficient to pay the debt. A tax increase was levied as part of the FY 2013-2014 budget year to pay the debt. The annual principal and interest payments are generally in the \$1,380,000 range.

WALKER COUNTY, TEXAS' OUTSTANDING DEBT FOR CERTIFICATES OF OBLIGATION

	Governmental Activities					
	2014		2013		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%
Certificates of Obligation:						
CO Series 2012	\$ 18,515,000	100	\$ 19,315,000	100	\$ (800,000)	(4)
Totals	\$ 18,515,000	100	\$ 19,315,000	100	\$ (800,000)	

For the fiscal year ended September 30, 2014, payments on certificates of obligation debt totaled \$800,000.

Additional information on debt can be found in Note I to the financial statements. In addition to debt for certificates of obligation the County has recorded debt for compensated absences of \$960,208 and a long-term obligation for post-employment benefits of \$6,795,020. The obligation for post-employment benefits is discussed in Note M of this report.

Economic Factors, Budget and Rate information for FY beginning October 1, 2014

- The unemployment rate in the County for 2014 was 5.1%, as compared to the state unemployment rate of 5.0% and national unemployment rate of 5.7%. This rate compares to 6.6% for the prior year according to information provided by the Texas Workforce Commission. Walker County has traditionally had very stable employment, due primarily to an economy based on employment at Sam Houston State University and Texas Department of Criminal Justice. The State's prison system is headquartered in Walker County with seven major facilities housing an estimated 14,086 inmates.
- The new improvement/construction value added to the tax roll for FY 2014 (tax year 2013) totaled \$53,541,869 as compared to \$54,133,334 for the prior year. \$50,000,000+ had been consistent for the last ten years. For FY 2014 (tax year 2013), taxable new growth totaled \$43,744,027.
- Commissioners' Court approved a \$32,927,065 expenditure budget for FY 2015, an increase from the \$30,494,793 budget for the 2014 fiscal year.
- The tax rate adopted for the FY 2015 budget is \$0.6589 per \$100 of valuation, down from the \$0.6778 for FY 2014. The rate adopted was the effective tax rate and was lower than the prior year as a result of growth in the tax base.
- Walker County revenues for FY 2015 at the date of this report generally continue to be in line with expectations. Total sales tax receipts are up about 9% to date in FY 2015 as compared to this time in FY 2014. Charges for service revenues as a total are in line with the budget. Ad valorem tax collections are at the approximate same percentage of levy through February. Walker County continues to closely monitor its revenues and expenditures.

Request for Information

This financial report is designed to provide a general overview of Walker County's finances for all of those with an interest in the County's finances. Questions concerning this report or requests for additional financial information should be addressed to Walker County Auditor, 1301 Sam Houston Avenue, Room 206, Huntsville, TX 77340 or P.O. Box 1260, Huntsville, TX 77342-1260.

WALKER COUNTY, TEXAS**RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
SEPTEMBER 30, 2014****EXHIBIT A-4**

Total Fund Balances - Governmental Funds (Exhibit A-3) \$ 12,396,665

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore,
are not reported in the funds. 28,655,524

Certain deferred inflows for property tax revenues are not available to pay current period
expenditures and, therefore, are deferred in the governmental funds. 1,287,690

Certain court fines receivables are not available to pay current period expenditures and,
therefore, are not reported in the funds. 710,573

Long-term liabilities are not due and payable in the current period and, therefore, are not
reported in the governmental funds. Liabilities at year end related to such items consist of:

Bonds, Certificate of Obligation	\$ (18,515,000)	
Premium on Bond	(111,376)	
Accrued Interest on Debt	(92,928)	
Compensated Absences	(960,208)	
Post-employment Benefits (OPEB)	<u>(6,795,020)</u>	<u>(26,474,532)</u>

Total Net Position - Governmental Activities (Exhibit A-1) \$ 16,575,920

The accompanying notes are an integral part of this statement.

WALKER COUNTY, TEXAS**EXHIBIT A-6****RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2014**

Total Net Change in Fund Balance - Governmental Funds (Exhibit A-5) **\$ (2,503,713)**

Amounts reported for governmental activities in the statement of activities are different because:

Some property taxes will not be collected for several months after the County's fiscal year end and are not considered "available" revenues and, therefore, are unrecorded in the governmental funds. Deferred tax revenues increased by this amount this year. 30,217

Some court fines will not be collected for several months after the County's fiscal year end and are not considered "available" revenues and, therefore, are deferred in the governmental funds. Court revenues increased by this amount this year. 49,809

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital Outlay	\$ 6,341,365	
Depreciation Expense	<u>(2,676,203)</u>	3,665,162

The net effect of miscellaneous transactions involving capital assets (transfers, adjustments and dispositions) is an increase (decrease) to net position. (160,470)

Long-term debt (e.g., certificate of obligation, compensated absences and post employment benefits) provides current financial resources to governmental funds, while the repayment of the long-term debt consumes the current financial resources of governmental funds. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas, these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Payment of principal	\$ 800,000	
Amortization of bond premium	6,488	
Accrued interest on debt	(67,440)	
Compensated absences liability increased	(51,921)	
Payables for post employment benefits which increased	<u>(1,518,451)</u>	<u>(831,324)</u>

Change in Net Position - Governmental Activities (Exhibit A-2) **\$ 249,681**

WALKER COUNTY, TEXAS

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

A. Summary of Significant Accounting Policies

1. Reporting Entity

The government of Walker County, Texas is a political subdivision of the State of Texas, formed in 1846. The basic financial statements of Walker County, Texas (the "County") have been prepared in conformity with accounting principles applicable to governmental units which are generally accepted in the United States of America. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The County's basic financial statements include the accounts of all its operations. The County evaluated whether any other entity should be included in these financial statements. The criteria for including organizations as component units within the County's reporting entity, as set forth in GASB Statement No. 61, "The Financial Reporting Entity: Omnibus An Amendment of GASB Statements No. 14 and No. 34," include whether:

- The organization is legally separate (can sue and be sued in its name)
- The County holds the corporate powers of the organization
- The County appoints a voting majority of the organization's board
- The County is able to impose its will on the organization
- The organization has the potential to impose a financial benefit/burden on the County
- There is fiscal dependency by the organization on the County

Based upon the application of these criteria to various separate entities, the organizations are classified as blended or discrete component units, related organizations, joint ventures, or jointly governed organizations with the financial disclosure treated accordingly. The following is a brief review of each potential component unit addressed in defining the government's reporting entity.

Related Organizations - Where the Commissioners' Court is responsible for appointing a majority of the members of a board of another organization, but the County's accountability does not extend beyond making such appointments, disclosure is made in the form of the relation between the County and such organization.

Walker County Emergency Services District No. 1 & No. 2

The emergency services districts are organized under the statutes of the State of Texas as political subdivisions of the State to provide protection from fire for life and property. Although Commissioners' Court appoints a five-member board for each district, the individual boards retain exclusive authority to levy taxes, issue bonded debt and approve appropriation budgets. Each district is required by statute to provide audited financial statements to the County as a matter of record.

2. Basis of Presentation, Basis of Accounting

a. Basis of Presentation

In June 1999, the Governmental Accounting Standards Board (GASB) issued Statement No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments." GASB Statement No. 34 establishes new requirements and a new reporting model for the annual reports of state and local governments. The Statement was developed to make annual reports easier to understand and more useful to the people who use governmental financial information to make decisions.

Management's Discussion and Analysis

GASB Statement No. 34 requires that financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "management's discussion and analysis" (MD&A). This analysis is similar to the analysis that private sector companies provide in their annual reports.

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

Government-wide Financial Statements

The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities, but also capital assets and long-term liabilities, if appropriate (such as buildings and infrastructure, including roads and bridges, and general obligation debt). Accrual accounting reports all of the revenues and costs of providing services each year, not just those received or paid in the current year or soon thereafter, as is the case with the modified accrual basis of accounting. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, interfund services provided and used are not eliminated in the consolidation process.

Statement of Net Position

The Statement of Net Position is designed to display the financial position of the primary government (governmental and business-type activities) and its discretely presented component unit. Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Position and report related depreciation expense, the cost of "using up" capital assets, in the Statement of Activities. The net position of a government is broken down into three categories: 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Statement of Activities

The government-wide statement of activities reports expenses and revenue in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (such as user charges or intergovernmental grants).

Budgetary Comparison Schedules

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of the state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets throughout the year for a variety of reasons. Under the GASB 34 reporting model, governments will continue to provide budgetary comparison information in their annual reports.

Government-wide and Fund Accounting

The basic financial statements include both government-wide (based on the County as a whole) and fund financial statements. While the previous reporting model emphasized fund types (the total of all funds of a particular type), the new reporting model focuses on either the County as a whole or on major individual funds (within the fund financial statements). Typically, both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business-type. The County reports only governmental type activities within the basic financial statements. In the government-wide Statement of Net Position, governmental activities are presented on a full accrual, economic resource basis, which incorporates long-term assets and receivables, as well as long-term debt and obligations.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (general government, financial, public safety, etc.), which are otherwise being supported by general government revenues (property taxes, earnings on investments, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues. The program revenues must be directly associated with the function (general government, financial, public safety, etc.).

The governmental funds major fund statements in the fund financial statements are presented on a current financial resource basis and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented which briefly explains the adjustments necessary to reconcile fund-based financial statements with the governmental column of the government-wide presentation.

WALKER COUNTY, TEXAS

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

The County's fiduciary funds are presented in the fund financial statements by type. Since, by definition, these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements. Since the County only reports agency funds, a statement of changes in fiduciary net position is not presented, within the basic financial statements. All assets reported in agency funds should be offset by a corresponding liability, resulting in zero net position.

The focus of the revised reporting model is on the County as a whole and the fund financial statements, including the major individual funds of the governmental funds, as well as the fiduciary funds and the component units. Each presentation provides valuable information that can be analyzed and compared to enhance the usefulness of the information.

In the fund financial statements, the accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. A description of the various funds follows.

The County reports the following major governmental funds:

General Fund

The General Fund is the County's primary operating fund. It is used to account for all financial transactions not properly includable in other funds. The principal source of revenue is local property taxes. Expenditures include all costs associated with the daily operations of the County.

Debt Service Fund

The Debt Service fund accounts for the servicing of long-term debt.

Capital Project – Jail Construction Fund

The Capital Project – Jail Construction fund accounts for the construction of the new county jail.

Grants and Contracts Fund

This governmental fund accounts for grants and contracts the County enters into with the State of Texas and the federal government.

Road and Bridge Fund

The Road and Bridge fund is used to account for the costs associated with the construction and maintenance of roads and bridges. Revenues are derived mainly from ad-valorem taxes, intergovernmental revenues, and fees and fines.

Walker County EMS Fund

The Emergency Medical Service (EMS) fund is used to account for all financial transactions incurred by providing emergency medical and ambulance services to the public.

In addition, the County reports the following fund types:

Fiduciary Funds

Agency funds are used to account for assets held by the County as an agent on behalf of various third parties outside of the County.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

b. Measurement Focus, Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund-types are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing resources) and decreases (i.e., expenditures and other financing uses) resulting in fund balance.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The fiduciary fund financial statements have no measurement focus since they consist solely of agency funds. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The accounts of the governmental fund types (the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Projects) are maintained, and the financial statements have been prepared, on the modified accrual basis of accounting. Under this basis of accounting revenues are recognized when they become susceptible to accrual (i.e., both measurable and available.) Available means collectible within the current year or soon enough thereafter to pay liabilities within 60 days of the end of the current fiscal period. Substantially all revenues, except property taxes and fines, are considered to be susceptible to accrual. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Principal and interest on long-term debt are recognized as expenditures when due.

Amounts reported as program revenues include 1) charges to customers for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Revenues that are generated internally are reported as general revenues, including property taxes.

B. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Short-term investments for the County are reported at fair value (generally based on quoted market prices) except for the position in the State Treasurer's Investment Pool (Pool). In accordance with state law, the Pool operates in conformity with all of the requirements of the Securities and Exchange Commission's (SEC) Rule 2a7 as promulgated under the Investment Company Act of 1940, as amended. Accordingly, the Pool qualifies as a 2a7-like pool and is reported at the net asset value per share (which approximates fair value) even though it is calculated using the amortized cost method. The Pool is subject to regulatory oversight by the State Treasurer, although it is not registered with the SEC.

2. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

3. Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

4. Capital Assets

Capital assets used in governmental fund types of the government are recorded as expenditures of the General, Special Revenue and Capital Projects Funds and as assets in the government-wide financial statements to the extent the County's capitalization threshold is met, currently \$5,000. Depreciation is recorded on capital assets on a government-wide basis. Major outlays for capital assets and improvements are capitalized as projects are constructed and subsequently depreciated over their estimated useful lives on a straight-line basis at the government-wide levels.

All capital assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated capital assets are valued at their estimated fair value on the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized and are not included.

Land and construction in progress are not depreciated.

Upon sale or retirement of capital assets, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and the resulting gain or loss is included in the results of operations.

Capital assets are being depreciated over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Infrastructure	20-40
Buildings	5-20
Building Improvements	3-20
Vehicles	4-7
Furniture and Fixtures	1-10
Machinery and Equipment	5-20

5. Compensated Absences

The County's policy permits employees to accumulate earned but unused vacation, compensatory time and sick pay benefits. Vested or accumulated leave that is expected to be liquidated with expendable financial resources is reported as an expenditure of the governmental fund when paid.

Amounts not expected to be liquidated with expendable available financial resources are reported as long-term debt in the government-wide statements for governmental funds. These amounts are calculated using employee pay rates in effect at year-end. No expenditure is recognized as incurred for these amounts until the actual leave time is used.

All compensated absences and related liabilities are recorded in the government-wide financial statements. However, compensated absences are reported in governmental funds only if they have matured unused reimbursable leave still outstanding following an employee's resignation or retirement.

6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The County does not have an item that qualifies for reporting in this category.

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The County has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source: property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

7. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the County's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

8. Fund Balance Flow Assumptions

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

9. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The County itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the County's highest level of decision-making authority. The governing body is the highest level of decision-making authority for the County that can, by adoption of an order prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the order remains in place until a similar action is taken (the adoption of another order) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as committed. The governing body (Commissioners' Court) has by resolution authorized the County Auditor to assign fund balance. The Commissioners' Court may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Additionally, the County has a policy to maintain fund balance at the 16.67% range of the operating costs reflected in the most current General Fund budget.

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

10. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates.

C. Compliance and Accountability

Budgets

The statutes of the State of Texas provide that "the amounts budgeted in a fiscal year for expenditures from the various funds of the County may not exceed the balances in those funds as of the first day of the fiscal year, plus the anticipated revenue for the fiscal year as estimated by the County Auditor." In addition, the law provides that the Commissioners' Court may, upon proper application, transfer an existing budget (during the year) to a budget of like kind but no such transfer shall increase the total of the budget.

An itemized budget must be prepared to allow as clear a comparison as practicable between the proposed budget and actual expenditures for the same of similar purposes that were made for the preceding fiscal year. The budget must contain a complete financial statement of the County that shows: 1) the outstanding obligations of the County; 2) the cash on hand to the credit of each fund of the County government; 3) the funds received from all sources during the preceding year; 4) the funds available from all sources during the ensuing fiscal year; 5) the estimated revenues available to cover the proposed budget; and 6) the estimated tax rate required to cover the proposed budget.

On or before the second Monday in July each year, all agencies of the County submit requests for appropriations to the County Judge so that a budget may be prepared. A copy of the proposed budget must be filed with the Clerk of the County Court and made available to the public by the last day of July. Before September 30, the proposed budget is presented to the Commissioners' Court for review and adoption. The Court holds public hearings as necessary and may add to, subtract from, or change appropriations but may not change the form of the budget.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. The legal level of budgetary control is the category defined as Salary, Other Pay and Benefits, Operations, Capital Expenditures and Transfers. The budget is prepared by fund, function, department, and category and includes information about the past year current year estimates, and requested appropriations for the next fiscal year. The County's department heads may make transfers of appropriations within categories established for their departments. Transfers of appropriations between categories and/or departments require a budget amendment and approval of Commissioners' Court. All annual appropriations lapse at fiscal year end.

Encumbrance accounting is employed in governmental funds. Encumbrances represent commitments related to unperformed contracts for goods or services. Available funds are encumbered during the year upon execution of purchase orders, contracts, or other appropriate documents in order to reserve that portion of the applicable appropriation. As all encumbrances lapse at year end, those encumbrances (e.g. purchase orders, contracts) outstanding at September 30 must be reappropriated in the budget of the subsequent year.

D. Deposits and Investments

The County's funds are required to be deposited under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the County's agent bank approved pledged securities in an amount sufficient to protect County funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

1. Cash Deposits

The County's cash and cash equivalents at September 30, 2014 are summarized as follows:

	Carrying Amount
Cash Deposits	\$ 3,252,841
Investments considered cash and cash equivalents:	
Wells Fargo Investment Portfolio	6,011,582
Texas Local Government Investment Pool	3,691,059
Cooperative Liquid Assets Securities System Trust (Texas Class)	2,774,622
DWS Government Cash Institutional Shares	527,676
Total Cash and Cash Equivalents	\$ 16,257,780

2. Investments

The County is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must be written; primarily emphasize safety of principal and liquidity; address investment diversification, yield, and maturity and the quality and capability of investment management; and include a list of the types of authorized investments in which the investing County's funds may be invested; and the maximum allowable stated maturity of any individual investment owned by the County.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the County adhered to the requirements of the Act. Additionally, investment practices of the County were in accordance with local policies.

The Act determines the types of investments which are allowable for the County. These include, with certain restrictions, (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) securities lending program, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) commercial paper.

The County invests surplus funds in accordance with its investment policy. The investments are in investment pools which are not categorized securities that exist in physical or book entry form. The fair value of the position in the external investment pool is the same as the value of the pool shares.

3. Analysis of Specific Deposit and Investment Risks

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. It is the County's policy to focus on safety and liquidity. The current policy is to invest only in investment pools. At year end, the County was not significantly exposed to credit risk. As of September 30, 2014, the government's investment in all investment pools were rated at least AAAM by Standard & Poor's.

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the County's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the County's name.

At year end, the County was not exposed to custodial credit risk.

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the County was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. The County manages this risk by limiting the maximum allowable stated maturity of any individual investment to 2 years.

E. Receivables

Receivables, including applicable allowances for uncollectible accounts, as of September 30, 2014 are as follows:

	General	Debt Service	Grants and Contracts	EMS	Nonmajor Governmental	Total
Receivables:						
Taxes	\$ 1,193,943	\$ 93,747	\$ -	\$ -	\$ -	\$ 1,287,690
Other Receivables	13,789	-	224	-	-	14,013
Other Governments	572,513	-	475,037	-	1,924	1,049,474
Accounts	112,072	-	314,720	3,251,296	-	3,678,088
Less: Allowance for Uncollectibles	-	-	-	(2,763,602)	-	(2,763,602)
Net Total Receivables	\$ 1,892,317	\$ 93,747	\$ 789,981	\$ 487,694	\$ 1,924	\$ 3,265,663

Governmental funds report unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period or in connection with resources that have been received, but not yet earned. As of September 30, 2014 the various components of unearned revenue reported in the governmental funds are as follows:

	Unearned
Grant funds received prior to meeting all eligibility requirements	\$ 40,749
Total Unearned Revenue for Governmental Funds	\$ 40,749

F. Property Taxes

The County's tax year covers the period October 1 through September 30. The County's property taxes are levied annually in October on the basis of the Walker County Appraisal District's ("WCAD") assessed values as of January 1 of that calendar year. The WCAD establishes appraised values at 100% of market value less exemptions. The County's property taxes are billed and collected by the Walker County Appraisal District. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed.

1. 2013 Tax Year

Property taxes are prorated between the General, Road and Bridge, and Debt Service Funds based on rates adopted for the year of the levy. For the 2014 fiscal year (2013 tax year), the County levied property taxes of \$0.6778 per \$100 of assessed valuation. The 2013 rates resulted in total tax levies of approximately \$16.61 million based on a total adjusted valuation of approximately \$2.2 billion. The total tax rate in the 2013 tax year was prorated as follows:

	2013 Rate
General Fund/Road and Bridge	\$ 0.6209
Debt Service Fund	0.0569
Total Tax Rate	\$ 0.6778

2. Walker County Appraisal District

Walker County Appraisal District ("WCAD"), a separate governmental entity, is responsible for the recording and appraisal of property for all taxing units in the County.

The WCAD is required by state law to assess property at 100% of its appraised value. Further, real property must be appraised at least every three years. Under certain circumstances, the taxpayers and taxing units,

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

including the County, may challenge orders of the WCAD's Appraisal Review Board through various appeals and, if necessary, legal action may be taken.

G. Interfund Receivables and Payables

At September 30, 2014, the interfund receivables and payables were as follows:

<u>Due to Fund</u>	<u>Due From Fund</u>	<u>Amount</u>	<u>Purpose</u>
General Fund	Grants and Contracts Fund	\$ 709,037	Short-term Loan
General Fund	Other Governmental Funds - Nonmajor	591	Short-term Loan
Total		\$ 709,628	

H. Capital Assets

Capital asset activity for the year ended September 30, 2014, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Transfers, Adjustments, and Disposition</u>	<u>Ending Balance</u>
Capital Assets, not being Depreciated:				
Land	\$ 680,552	\$ -	\$ -	\$ 680,552
Construction in Progress	13,669,169	5,459,927	(19,129,096)	-
Total Capital Assets, not being Depreciated	14,349,721	5,459,927	(19,129,096)	680,552
Capital Assets, being Depreciated:				
Vehicles	4,721,812	291,132	(171,900)	4,841,044
Office Furniture and Fixtures	2,044,082	68,376	(464,096)	1,648,362
Machinery and Equipment	4,757,259	373,990	768,434	5,899,683
Buildings, Facilities, and Improvements	21,289,634	147,940	18,119,473	39,557,047
Total Capital Assets, being Depreciated	32,812,787	881,438	18,251,911	51,946,136
Less Accumulated Depreciation for:				
Vehicles	(3,461,060)	(437,288)	154,249	(3,744,099)
Office Furniture and Fixtures	(1,433,035)	(238,686)	541,593	(1,130,128)
Machinery and Equipment	(3,801,415)	(413,167)	20,873	(4,193,709)
Buildings, Facilities, and Improvements	(13,316,166)	(1,587,062)	-	(14,903,228)
Total Accumulated Depreciation	(22,011,676)	(2,676,203)	716,715	(23,971,164)
Total Capital Assets, being Depreciated, net	10,801,111	(1,794,765)	18,968,626	27,974,972
Capital Assets, net	\$ 25,150,832	\$ 3,665,162	\$ (160,470)	\$ 28,655,524

Depreciation was charged to functions as follows:

General Government	\$ 613,391
Financial	26,801
Judicial	115,698
Public Safety	767,409
Correction and Rehabilitation	879,601
Health and Welfare	16,257
Culture and Education	1,621
Public Transportation	255,425
Total Depreciation Expense	\$ 2,676,203

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

I. Long-Term Debt

Long-term liabilities applicable to the County's governmental activities are not due and payable in the current period, and accordingly, are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. Long-term bonded debt and certificates of obligation at September 30, 2014 are listed below:

<u>Description</u>	<u>Interest Rate</u>	<u>Date of Issue</u>	<u>Maturity Date</u>	<u>Original Issue</u>	<u>Outstanding Debt</u>
Certificates of Obligation:					
Series 2012	2.00-3.750%	6/1/2012	8/1/2032	\$ 20,000,000	\$ 18,515,000
Totals				\$ 20,000,000	\$ 18,515,000

The Series 2012 certificates of obligation were issued to construct a new county jail.

A summary of long-term liability transactions of the County for the year ended September 30, 2014, follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Governmental Activities:					
Certificates of Obligation	\$ 19,315,000	\$ -	\$ (800,000)	\$ 18,515,000	\$ 815,000
Less Deferred Amounts:					
For Issuance Premiums	117,864	-	(6,488)	111,376	-
Total Certificates of Obligation, net	19,432,864	-	(806,488)	18,626,376	815,000
Compensated Absences*	908,287	729,757	(677,836)	960,208	960,208
OPEB Obligations*	5,276,569	1,673,087	(154,636)	6,795,020	-
Total Long-term Liabilities	\$ 25,617,720	\$ 2,402,844	\$ (1,638,960)	\$ 26,381,604	\$ 1,775,208

*Other Long-term Liabilities

The funds typically used to liquidate other long-term liabilities in the past are as follows:

<u>Liability</u>	<u>Activity Type</u>	<u>Fund</u>
Compensated Absences	Governmental	General Fund and Special Revenue Funds
OPEB Obligations	Governmental	General Fund

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

Annual debt service requirements for certificates of obligations to maturity are summarized as follows:

Year Ending September 30,	Certificates of Obligation		
	Principal Value	Interest	Total Requirements
2015	\$ 815,000	\$ 560,668	\$ 1,375,668
2016	830,000	544,368	1,374,368
2017	845,000	527,768	1,372,768
2018	865,000	510,868	1,375,868
2019	880,000	493,568	1,373,568
2020	910,000	467,168	1,377,168
2021	935,000	439,868	1,374,868
2022	965,000	411,818	1,376,818

2031	1,280,000	96,754	1,376,754
2032	1,335,000	41,162	1,376,162
Totals	\$ 18,515,000	\$ 6,237,485	\$ 24,752,485

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years. During the current year, the County does not expect to incur a liability.

J. Leases

Operating Leases

The County is a party to several lease agreements either as a lessor or lessee. The significant terms for each lease are discussed below.

Walker County Health Center

The County has leased approximately 6,400 square feet in the Walker County Health Center to the Senior Center of Walker County, Inc. for an annual rental of \$1. The lease term was twenty years beginning November 14, 1985. The Senior Center of Walker County, Inc. still occupies the facility. The County provides general maintenance services to the building exterior and grounds and provides up to \$6,000 for general operating expenses. The Senior Center of Walker County, Inc. is responsible for janitorial services. Insurance coverage is split between the County and the Senior Center of Walker County, Inc.

In addition, the County allows use of office space located in the Health Center facility by the Special Prosecution Unit (SPU) - Criminal. An agency funded by state grant money, the SPU budget pays for janitorial services, insurance, and utilities at no cost. The County is responsible for repairs to the facility.

Total Cost of Health Center	\$ 250,000
Accumulated Depreciation	250,000

Powell Family Home

The County leases from the Estate of Ben H. Powell III the Powell Family Home for an annual rental of \$1 for the purpose of operating a historical museum. The lease term is fifty years beginning January 1, 1984. Additional rent assessments are charged for property taxes and other costs. The County maintains and repairs the premises as well as incurs rights and obligations to operate and manage the leased premises in accordance with the provisions of the lease agreement and laws applicable to the Walker County Historical Commission.

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

1313 University Avenue

The County leases office space to the Department of Public Safety (DPS) at no charge. Prior to March 2008, DPS leased the building at 344 Highway 75 North, Suite 200. DPS is responsible for all charges for utilities, maintenance, repairs and other similar charges for services rendered on the premise. The contract is for ten years beginning September 1, 2004 and terminating August 31, 2014. The original contract remains in effect for the remainder of the term.

Clinic Space at 1301 Sam Houston Avenue

The County has leased 240 square feet of office space from the 20,706 square foot Courthouse Annex to the Texas Health and Human Services Commission at no charge. The Texas Health and Human Services Commission was responsible for utilities, phone installation and phone service for the space. Walker County was responsible for facility repairs and upkeep and provided janitorial services. The provided space was used by the Department of State Health Services to house two Registered Nurses for the public health clinic to provide services such as immunizations and TB case management and control and working with the schools and the public on public health issues. The initial contract period began September 1, 2011 and terminated November 30, 2011 and allowed for successive three month renewals. Final termination of the contract was November 2012.

K. Interfund Transactions

Interfund transfers are defined as "flows of assets without equivalent flow of assets in return and without a requirement for repayment." The following is summary of the County's transfers for the year ended September 30, 2014:

<u>Transfers From</u>	<u>Transfers To</u>	<u>Amount</u>
General Fund	Road and Bridge Fund	\$ 755,547
General Fund	Walker County EMS Fund	1,155,613
General Fund	Other Governmental Funds - Nonmajor	18,233
Road and Bridge Fund	General Fund	86,592
Total		\$ 2,015,985

Transfers made from general fund to various funds were approved by Commissioner's Court and made to supplement various projects throughout the year. The transfer from road and bridge fund to general fund was to reimburse the general fund for previously transferred funds.

M. Pension Plan

1. Plan Description

The County provides retirement and disability benefits for all of its full time employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of 656 nontraditional defined benefit pension plans. TCDRS in the aggregate issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at PO Box 2034, Austin, TX 78768-2034.

The plan provisions are adopted by the governing body of the employer, within the options available in the Texas state statutes governing TCDRS (TCDRS Act). Members can retire at ages 60 and above with eight or more years of service, with 20 years of service regardless of age, or when the sum of their age and years equals 75 or more. Members are vested after eight years of service but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

2. Contributions

The employer has elected the annually determined contribution rate (ADCR) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the employer is actuarially determined annually. It was 12.35% for the months of the accounting year in 2014, and 11.93% for the months of the accounting year in 2013. The contribution rate payable by the employee members is the rate of 7% as adopted by the governing body of the employer. The employee contribution rate and the employer contribution rate may be changed by the governing body of the employer within the options available in the TCDRS Act.

For the years ended September 30, 2014, 2013 and 2012, the pension cost for the TCDRS plan and the actual contributions made were \$1,942,264, \$1,786,972, and \$1,689,509, respectively. Because all contributions are made as required, no pension obligation existed at September 30, 2014.

Annual Pension Cost. The required contribution was determined as part of the December 31, 2013 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at December 31, 2013 included (a) 8.0 percent investment rate of return (net of administrative expenses), and (b) projected salary increases of 4.9 percent. Both (a) and (b) included an inflation component of 3.0 percent. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at December 31, 2013 was 20 years.

Funded Status and Funding Progress. As of December 31, 2013, the most recent actuarial valuation date, the plan was 81.41 percent funded. The actuarial accrued liability for benefits was \$47,882,590, and the actuarial value of assets was \$38,983,391, resulting in an unfunded actuarial accrued liability (UAAL) of \$8,899,199. The covered payroll (annual payroll of active employees covered by the plan) was \$15,254,940, and the ratio of the UAAL to the covered payroll was 58.34 percent.

The Schedule of TCDRS Funding Progress, which is found in the Required Supplementary Information immediately following the Notes to the Financial Statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

N. Other Postemployment Benefits Plan

1. Plan Description

Permanent full-time employees and elected officials of the County who were hired before October 1, 2013 and are retiring under TCDRS with 20 consecutive years of service, are eligible to participate in the retiree health care plan, a single employer plan, with the cost paid by Walker County until the retiree becomes eligible for Medicare. The County will then pay the premium for a Medicare supplement policy. The retiree pays Medicare Part B premiums.

Permanent full-time employees and elected officials of the County who retire that were hired prior to October 1, 2013 and meet one of the following criteria 1) 8 years of continuous service and are at least 60 years of age; 2) age plus years of service equals 75; or 3) 20 no-consecutive years of service, may continue their coverage until the retiree becomes eligible for Medicare under the County's medical insurance program for themselves and their eligible dependents by paying the total premium.

2. Funding Policy

The County has elected to fund the retiree health care benefits using the pay-as-you-go (or cash disbursement) method. The County's annual contribution for these benefits is equal to the actual disbursements during the year for health care benefits for retired employees. This method of funding will result in increasing contributions over time. Per capita cash disbursements will tend to increase from year to year as the cost of health care services, or the utilization of these services increase.

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

A retiree health care plan is similar to a defined benefit pension plan, in that promises are made to employees to provide to them with a benefit payable at some future date. For defined benefit pension plan sponsors, a common funding objective is to contribute annual amounts to a fund which will i) remain level as a percentage of active member payroll, and ii) when combined with present assets and future investment return will be sufficient to meet the financial obligations of the Plan to current and future retirees.

The ultimate determination as to the level of pre-funding will be the result of decisions made in an attempt to reconcile the often conflicting needs of benefit security for members and fiscal responsibility for the County. Currently, Walker County has not established a trust to pay retiree health benefits; therefore, a separate GAAP basis post-employment benefit plan report is not available.

3. Annual OPEB Cost and Net OPEB Obligation

The County's annual other postemployment benefits (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB 45. The ARC represents a level of accrual that is projected to recognize the normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The County had its first OPEB actuarial valuation performed for the fiscal year beginning October 1, 2009 as required by GASB. The annual OPEB cost is as follows:

	2014	2013	2012
Annual OPEB cost:			
Annual Required Contribution (ARC)	\$ 1,655,650	\$ 1,576,251	\$ 1,323,643
Interest on Prior Year Net OPEB Obligation	237,446	175,096	121,380
Adjustment to the ARC	(220,009)	(162,238)	(112,467)
Annual OPEB Cost	<u>1,673,087</u>	<u>1,589,109</u>	<u>1,332,556</u>
Employer Contributions	<u>(154,636)</u>	<u>(203,564)</u>	<u>(138,867)</u>
Total Contributions	<u>(154,636)</u>	<u>(203,564)</u>	<u>(138,867)</u>
Net OPEB Obligation Increase (Decrease)	1,518,451	1,385,545	1,193,689
Net OPEB Obligation - October 1	<u>5,276,569</u>	<u>3,891,024</u>	<u>2,697,335</u>
Net OPEB Obligation - September 30	<u>\$ 6,795,020</u>	<u>\$ 5,276,569</u>	<u>\$ 3,891,024</u>
Percentage of Annual OPEB Cost Contributed	9.24%	12.81%	10.42%

4. Funded Status and Funding Progress

The funded status of the plan based on an actuarial update using age-adjusted premiums as of October 1, 2013, was as follows:

Actuarial Valuation Date as of October 1	Actuarial Value Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll (b-a)/(c)
2013	\$ -	\$ 15,057,656	\$ 15,057,656	0.00%	\$ 12,811,140	117.54%

Under the reporting parameters, the County's retiree health plan is 0% funded with an estimated actuarial accrued liability exceeding actuarial assets by \$15,057,656 at October 1, 2013.

The Schedule of Other Postemployment Benefits Plan (OPEB) Funding Progress, which is found in the Required Supplementary Information immediately following the Notes to the Financial Statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status and the annual required contributions of the County's retiree health care plan are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

WALKER COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

5. Actuarial Methods and Assumptions

The Projected Unit Credit actuarial cost method is used to calculate the GASB ARC for the County's retiree health care plan. Using the plan benefits, the present health premiums and a set of actuarial assumptions, the anticipated future payments are projected. The projected unit credit method then provides for a systematic recognition of the cost of these anticipated payments. The yearly ARC is computed to cover the cost of benefits being earned by covered members as well as to amortize a portion of the unfunded accrued liability.

The following is a summary of the actuarial assumptions:

Actuarial valuation date	10/1/2012	10/1/2013
Actuarial cost method	Projected unit credit cost method	Projected unit credit cost method
Amortization method	Level as a percentage of payroll	Level as a percentage of payroll
Amortization period	Open 30 year period	Open 30 year period
Investment rate of return	4.5% (1.50% rate of return, 3.00% inflation)	4.5% (1.50% rate of return, 3.00% inflation)
Payroll growth rate	3.00%	3.00%
Mortality Table	RP-2000 Project AA 2015	RP-2000 Project AA 2015

O. Commitments and Contingencies

Contingencies

The County participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the County has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable may be impaired. In the opinion of the County, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

P. Risk Management

The County is exposed to various risks of losses related to torts, theft of, damage to and destruction of capital assets; errors and omission; injuries to employees; and natural disasters. The County participates in the Texas Association of Counties Risk Management Pool ("the Pool") created by interlocal agreement to enable its members to obtain coverage against various types of risk. The Pool is administered by the Texas Association of Counties (TAC). Through this pool, the County obtains general liability, property, public officials' liability, law enforcement professional liability, auto physical damage, auto liability, and workers' compensation coverage. The County also participates in the Texas Association of Counties Health and Employee Benefits Pool administered by TAC. The County contributes a minimum of \$673 per month for each employee who elects medical coverage. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for any of the past three fiscal years.

WALKER COUNTY, TEXAS

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED SEPTEMBER 30, 2014

A. Budgetary Information

The statutes of the State of Texas provides that "the amounts budgeted in a fiscal year for expenditures from the various fund of the County may not exceed the balance in those funds as of the first day of the fiscal year, plus the anticipated revenue for the fiscal year as estimated by the County Auditor." In addition, the law provides that the Commissioners' Court may, upon proper application, transfer an existing budget during the year to a budget of like kind but no such transfer shall increase the budget.

On or before the second Monday in July each year, all agencies of the County submit requests for appropriations to the County Judge so that a budget may be prepared. A copy of the proposed budget must be filed with the Clerk of the Court and made available to the public by the last day of July. Before September 30, the proposed budget is presented to Commissioners' Court for review and adoption. The Court holds public hearings as necessary and may add to, subtract from, or change appropriations but may not change the form of the budget.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. For County operating budgets (General Fund, EMS Fund, etc.), the legal level of control is at the budget category level of Salary, Other Pay and Benefits and Operations (Supplies, Services and Charges), Capital Expenditures, and Transfers. The legal level of control level for the Road and Bridge Fund is at the department level. Expenditures may not be made or approved if the expenditures will cause the category to exceed budget. Departments are encouraged to maintain control at the line item level. Grant budgets are approved at the grant level. Fund budgets created for legislatively designated purpose monies (example Hot Check Fund, County Clerk Records Fund, Narcotics Forfeiture Funds, District Clerk Funds, etc.) are approved at the fund level. Expenditure of funds and budget adjustments shall be in accordance with state statutes. Capital budgets are at the project level.

Walker County direct debt			\$ 18,626,376
Total direct and overlapping debt			<u><u>\$ 80,327,661</u></u>

Source: Entities as listed

1] Debt Outstanding provided by the Taxing Jurisdiction

2] All entities listed above are within the boundaries of Walker County. Thus, 100% of the debt of these governmental units is included in the estimated share of overlapping

3] Note. Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the county.

This schedule estimates the portion of the debt of these entities that is borne by the residents and businesses of Walker County.

This process recognizes that, when considering the government's ability to issue debt and repay long term debt, the entire debt cost borne by the residents and businesses should be taken into account. However, this does not imply that

every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Commissioners' Court
Walker County, Texas
1100 University Avenue
Huntsville, Texas 77340

Members of the Commissioners' Court:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Walker County, Texas (County), as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise Walker County, Texas' basic financial statements and have issued our report thereon dated March 24, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Walker County, Texas' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Walker County, Texas' internal control. Accordingly, we do not express an opinion on the effectiveness of Walker County, Texas' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Walker County, Texas' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully,

Hereford, Lynch, Sellars & Kirkham, P.C.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY TEXAS UNIFORM GRANT MANAGEMENT STANDARDS

Commissioners' Court
Walker County, Texas
1100 University Avenue
Huntsville, Texas 77340

Members of the Commissioners' Court:

Report on Compliance for Each Major State Program

We have audited Walker County, Texas' (County) compliance with the types of compliance requirements described in the Texas Uniform Grant Management Standards that could have a direct and material effect on each of Walker County, Texas' major state programs for the year ended September 30, 2014. Walker County, Texas' major state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Walker County, Texas' major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; Texas Uniform Grant Management Standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about Walker County, Texas' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of Walker County, Texas' compliance.

Opinion on Each Major State Program

In our opinion, Walker County, Texas, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended September 30, 2014.

Report on Internal Control Over Compliance

Management of Walker County, Texas is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Walker County, Texas' internal control over compliance with the requirements that could have a direct and material effect on a major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with Texas Uniform Grant Management Standards, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Walker County, Texas' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. *A material weakness in internal control over compliance is a deficiency*, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance is a deficiency*, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be, material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Texas Uniform Grant Management Standards. Accordingly, this report is not suitable for any other purpose.

Respectfully,

Hereford, Lynch, Sellars & Kirkham, P.C.
