*Annual Comprehensive Financial Report
For the Year Ended September 30, 2021*

**Shown on the cover and copied with permission of the artist,
Mr. Joseph Polley Paine, is a reproduction of a lithograph
he did for Huntsville's Bicentennial in 1976.**

JOSEPH POLLEY PAINE'S "Early Architecture of Huntsville"
is what the artist calls "Documentary art".

Across the top is a reproduction of Bollaert's sketch of Huntsville made in December, 1843. Englishman William Bollaert came to Texas, at General Sam Houston's invitation, to study the possibility of attracting immigrants. Bollaert's diary of his visit to Huntsville read, "Three miles brought us to Huntsville, situated on a pine height. This town was commenced in 1836, but made little progress until 1842 when Mr. MacDonald gave an impetus to building. On entering the town is observed a planter's exchange, Gibbs Grocery, Huntsville Hotel... Mr. MacDonald, besides a very large and comfortable residence, has built a brick store, the upper part devoted to a Masonic Lodge. A large brick building for girls and boys schools is now building and many other improvements going on."

Next in the artwork is the Cumberland Presbyterian Church erected in 1839. The Christian congregation purchased the property in 1868.

The third structure is MacDonald's (sometimes spelled McDonald's) brick store and Masonic Hall. It was redrawn from an 1844 map of the city.

The Huntsville Academy, also from the map of 1844, is right of the tower. The structure at the left is the third building used as the Walker County Courthouse. This building in 1888, was razed by fire.

The large building facing the right portion of the drawing is the original building in the state prison system. The building, along with several others in Huntsville, was "remodeled" or "modernized" and the tower was removed. This building was revamped in 1942.

At the right is Andrews Female College, a Methodist institution built in 1852, which later became public school property in 1879 and a frame building, was put on the same site.

Built in the 1840's, Henderson Yoakum's home at Shepherd's Valley was where Yoakum wrote his "History of Texas." The history was published in 1855. Dog run style houses had a hall through the center 20 feet wide. On each side of the open hall were two 20 by 20 foot rooms. The sills of the hand-hewn logs were sixty feet long and three feet thick.

Now known as Old Main, the Sam Houston Normal Institute was dedicated in 1890. (Lost to fire on February 12, 1982)

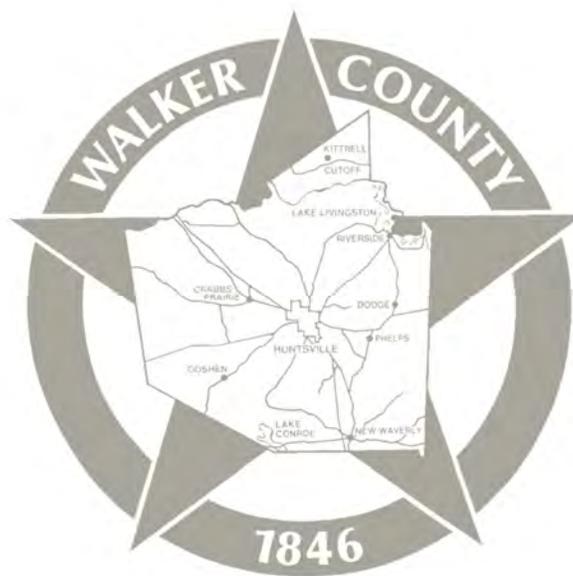

The Austin College building behind the Normal Institute was dedicated in 1851 as a Presbyterian school. The Bell Tower shown in Mr. Paine's Lithograph is now at the Austin College in Sherman, Texas and is rung at graduation there. This building was the main structure at Sam Houston Normal Institute from 1879 to 1890.

The final structure in the Bicentennial work is Sam Houston's home, "Woodlands", which was built in 1847.

Artist Paine was assisted in his research by Mrs. Josephine Bush, keeper of the books in the Thompson Room of Sam Houston State University Library.

INTRODUCTORY SECTION

WALKER COUNTY AUDITOR

1301 Sam Houston Avenue Room 206

Huntsville, Texas 77320

(936) 436-4948

March 17, 2021

The Honorable District Judges of the 12th and 278th Districts
The Honorable Commissioners' Court
Walker County, Texas

Gentlemen:

The Annual Comprehensive Financial Report of Walker County, Texas, for the year ended September 30, 2021, is submitted herewith. This report was prepared in accordance with generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board and is in compliance with Vernon's Texas Codes Annotated (VTCA) Local Government Code. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation including all disclosures rests with the County. I believe the data as presented is accurate in all material aspects and presented in a manner designed to fairly set forth the financial position and results of operations of Walker County as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain the maximum understanding of the County's financial activity have been included.

Walker County's financial statements have been audited by Pattillo, Brown & Hill, LLP. The goal of the independent audit was to provide reasonable assurance that the financial statements of Walker County for the year ended September 30, 2021 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based on the audit, that there was a reasonable basis for rendering an unmodified opinion that Walker County's financial statements for the fiscal year ended September 30, 2021 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of Walker County was part of a broader, federally and/or state mandated "Single Audit" designed to meet the special needs of federal and/or state grantor agencies. The standards governing Single Audits engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal control and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal and/or state awards. The Single Audit report is in conformity with the provisions of the Single Audit Act Amendments of 1996, the U.S. Office of Management and Budget's (OMB) Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, which superseded OMB Circular A-133 and other related documents, the *Texas Uniform Grant Management Standards*, and the *State of Texas Single Audit Circular*. Information related to this single audit, including a Schedule of Expenditures of Federal and/or State Awards, the independent auditors' reports on internal controls and compliance with applicable laws and regulations, and a Schedule of Findings are included in this report. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Walker County's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

Walker County, created in 1846, covers approximately 810 square miles in the rolling hills of the East Texas Pineywoods and according to 2020 census serves a population of approximately 76,400. Walker

County is located approximately 60 miles north of metropolitan Houston and 165 miles south of metropolitan Dallas/Fort Worth. Interstate 45 runs through the County.

The financial reporting entity of Walker County includes all the funds of the County. The County provides a full range of services including police protection, legal and judicial services, and maintenance of roads and bridges. The transactions of all elected county, district and precinct officers are also included. Although these officials are responsible solely to the electorate, the officials receive funding for the operation of their departments from the Commissioners' Court, which has discretion over those expenditures.

The County operates under the Commissioners' Court form of elected government and is a political subdivision of the State of Texas. The County is empowered to levy a property tax on both real and personal property located within its boundaries. Policy and decision making authority are vested in the Commissioners' Court, which consists of the County Judge and four Commissioners. This Court is responsible for adopting the budget, appointing committees, and overseeing the general business of the County. The Commissioners, as well as the Judge, are elected to four-year terms with alternate elections every two years so that the court will contain senior members.

In addition to law enforcement, judicial, and infrastructure expenditures, Walker County funds other services. Additional services include fire protection and comprehensive 911 dispatch operations. Dispatch operations are provided by interlocal agreements between Walker County and the City of Huntsville. Volunteer fire departments within the County also receive financial support from the County. In addition, Emergency Medical Services are provided.

Local Economic Condition and Outlook

Walker County provides access to the highly popular Sam Houston National Forest where rich vegetation and numerous lakes allow visitors to participate in activities such as fishing, camping, and hiking. Also, Walker County visitors and residents alike enjoy the scenery provided by the world's tallest statue of an American hero; the 67-foot high replica of Sam Houston known as *A Tribute to Courage*. Meanwhile, indoor entertainment can be found at the Sam Houston Memorial Museum, the Texas Prison Museum, and a variety of cultural and sporting events offered by Sam Houston State University, in Huntsville. The H.E.A.R.T.S Veteran's Museum of Texas is located adjacent to Interstate 45.

The county seat is Huntsville, Texas. Two other municipalities located within the County include the City of New Waverly and the City of Riverside. Walker County has abundant wildlife and contains approximately 54,000 acres of the Sam Houston National Forest within its boundaries. Lake Livingston, a popular attraction, borders the County's eastern boundary while Lake Conroe rests on the southern boundary. The rural setting, with access to the outdoors, recreational facilities, and urban amenities, provides Walker County citizens and tourists with much enjoyment year round.

Walker County's estimated population is 76,400. State and local government are significant sources of employment for this area while additional hiring focuses on agribusiness, forest production, and timber industries due to the vast number of natural resources available.

The unemployment rate in the County for 2021 was 7.7%, compared with the state unemployment rate of 6.6% and national unemployment rate of 5.9%. This county rate compares to 8.0%, for the prior year according to information provided by the Texas Workforce Commission. Walker County has traditionally had very stable employment, due primarily to an economy based on employment at Sam Houston State University and Texas Department of Criminal Justice. The State's prison system is headquartered in Walker County with seven major facilities housing an estimated 12,412 inmates. Sam Houston State University, also located in Walker County, reported an enrollment of approximately 21,612 students for the fall of 2021 as compared to 21,837 for 2020.

Despite the pandemic and unemployment numbers, overall Walker County revenues remained stable. In FY 20/21, building permits were up from the prior year and the trend continues thru the current date. Sales tax revenues were up during the fiscal year covered by this report and continues in to the current year. Expenditures related to the pandemic were covered by Federal funds received not causing a negative effect on Fund Balance. There is a stable enrollment rate at Sam Houston State University. The economic outlook is a moving target and not easily defined at any one moment during this pandemic. Fund Balance for the County is strong. There is recently approved Federal legislation with targeted monies for individuals, and businesses. Walker County will receive a total of \$14,173,281. Half of this amount was received in FY 21 with the remainder expected in July of FY 2022 to be spent for designated purposes defined under the State and Local Coronavirus Fiscal Recovery Funds legislation, part of the American Rescue Plan Act.

The H.E.A.R.T.S Veteran's Museum of Texas, a local 501(c)(3) organization, has built a museum collection over the last 15 years to commemorate and honor U.S. military veterans from all branches of service. In order to provide a facility to house the collection, the State Legislature authorized an allocation to Walker County through the General Land Office. The 12,500 sq. ft. facility is adjacent to the County Storm Shelter project located on a five acre site located at 445 SH 75 S, in Huntsville, Texas.

Long-term financial planning. Walker County issued \$20,000,000 in Certificates of Obligation in 2012 for construction of a new jail facility. This followed several years of planning and discussion. A tax rate increase was necessary to pay the debt. The jail was finished and occupied in May 2014.

Monies are also included in the budget for continuing improvements to bridges and water way crossings. The County intends to continue with improving roads and bridges. The Commissioners in a joint effort over the past several years have been able to procure equipment necessary to seal-coat roads with high traffic and high maintenance needs. This has improved the accessibility of property and decreased labor-intensive maintenance in these areas. The budget allocations for the last several years included funds to supplement the road maintenance funds.

Walker County continues to support the rural water supply programs throughout the County, which have greatly enhanced services to rural county residents. These projects are funded through federal community development pass-through grants.

Emergency planning and public safety. Walker County continues its focus on enhanced service related to public safety and a high level of preparedness for emergencies. An emergency notification system (Code Red) is in place as well as an updated public safety radio system, enhancing interoperability for all public safety/emergency management. The Code Red system allows for telephone notification of citizens about situations that may affect public safety. The County Judge acts as the Director of the Office of Emergency Management (OEM). He is assisted by an Emergency Management Coordinator, a Deputy Coordinator, a volunteer Director of Communications and a Donations Manager. The Emergency Operations Center (EOC), a joint operations center with the Cities of Huntsville, New Waverly and Riverside has been upgraded in many areas. The communications area of the EOC is at its highest level of inter-operability. Walker County EOC has a radio tower and radio system for contact with not only local jurisdictions but also state agencies. Walker County has adopted the NIMS system for running the EOC during an emergency.

Walker County is very proactive in searching for sources of revenues from granting agencies and monies available thru the state and federal government. Walker County is also very involved in several interagency public safety task forces and budgeting for grant match needs is a high priority budget item as is funding the personnel needed to address public safety concerns. The Sheriff's Department is very involved in the Organized Crime Drug Enforcement Task Force (OCDETF), which is expanded even nationwide, to reduce the flow of illicit drugs and drug proceeds of major trafficking organizations. They also participate in the High Intensity Drug Trafficking Areas Program (HIDTA), which operates in areas determined to be critical drug trafficking regions of the United States. Walker County works with Montgomery County on the Automobile Burglary and Theft Prevention Authority (AutoTheft) to combat vehicle theft and burglary through enforcement, prevention and education initiatives. Walker County applies for funds through the Homeland Security Grant Program to purchase necessary equipment to help law enforcement achieve a National Preparedness Goal of a secure and resilient nation. The Sheriff Department also works with the City of Huntsville in sharing funds awarded through the Edward Byrne Memorial Justice Assistance Grant Program (JAG) for necessary equipment and software for law enforcement. The Walker County Sheriff's Office has been able to remain above the State average on crime clearance.

Walker County operates a shelter that was funded from FEMA and ORCA monies in previous years. Walker County continues to maintain and update information to Walker County maps for use by emergency medical services, fire departments, and communications providers among others. As this project progresses, the citizens of Walker County are expected to see more efficient emergency services due to the standardized addressing system as well as have access to updated and more accurate maps.

Internal Controls. Internal controls are management tools designed to help management meet its responsibilities and achieve its objectives. Basic objectives include meeting requirements of the offices as set out in state statute with effectiveness and efficiency (achieving the purpose of the department and county and making good use of the resources entrusted to Walker County elected officials and department heads). While management is primarily responsible for internal controls, the governing body plays a role in assisting management in fulfilling its duties. Commissioners Court, the governing body of the County, has adopted policies and procedures to aid in this process. An internal audit function is funded in the budget and regular internal audits are conducted with the focus on internal controls put in place by management/elected officials of the various departments of the County. Reports are regularly presented to the elected officials and department heads and Commissioners Court. Inherent limitations are associated with internal controls. Cost considerations often prevent management from installing the most desirable system including budget limitations not allowing for the desired segregation of duties; internal controls are potentially subject to management and employee override; and the risk of collusion exists. In County government another limitation is that most department heads are elected officials and state statute grants limited authority to the governing body to direct procedures and operations of an elected official.

Financial Policies and impact on current period financial statements. The County has the policy of funding all on-going costs with revenues generated in the current year. During the budget process each year fund balances are reviewed and generally one-time and capital costs are funded from available funds (fund balance). Contingency is also historically funded from available funds. The budgeted collections rate in the budget for current property taxes in past years has been budgeted in the 94% - 96% range. Collections have historically been in the 95% - 97% range. For the past several years, collections have been budgeted at 94% due to the volatile economy; however collections have remained stable. In the fiscal year beginning October 1, 2021, as in previous years, one-time costs were funded with funds available in fund balance. There last tax increase was in 2013 followed by no tax increases in 2014, 2015, 2016, 2017, 2018, 2019, 2020 and 2021. In the fiscal year that begins October 1, 2022, a tax rate of \$0.4799 was adopted, a rate that exceeds the no-new-revenue tax rate but is less the FY 2021 actual rate. The total budget for FY 21/22 that began October 1, 2021 is \$43,227,188 compared to the original budget of \$39,343,885 for the FY 20/21 year covered by this report, an increase of \$3,883,304. The increase in the FY 2022 budget is primarily for increased salaries for law enforcement, Emergency Medical Services and other employees to retain employees and be competitive with local and surrounding communities. A salary study is currently underway.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Walker County for its annual comprehensive financial report for the fiscal year ended September 30, 2020. This was the twenty fifth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

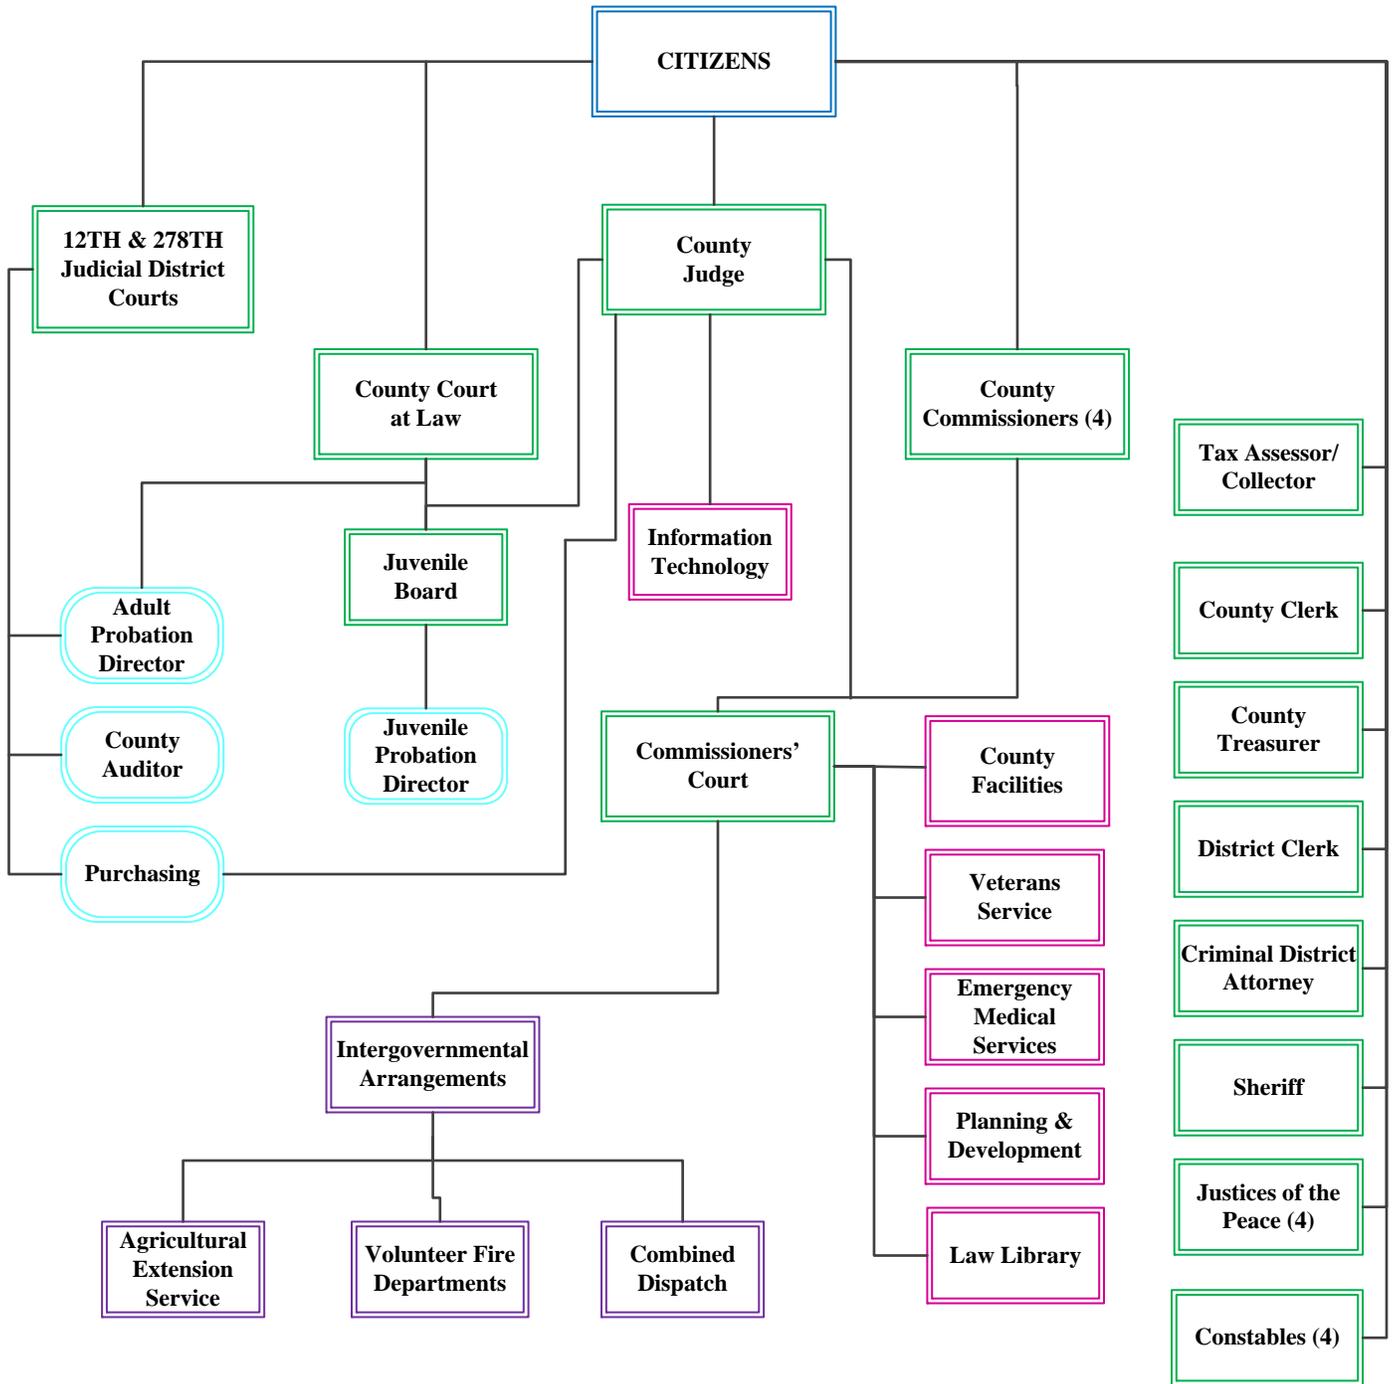

Acknowledgements. The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the County Auditor's Office. I would like to express my appreciation to everyone in the office for their loyal and dedicated service. I would also like to commend the members of the Commissioners' Court for conducting the financial operations of Walker County in a responsible manner.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

Honorable County Judge
and Commissioners' Court of Walker County
Huntsville, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Walker County, Texas, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise Walker County, Texas' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Walker County, Texas' management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Walker County, Texas, as of September 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter – Change in Accounting Principle

As described in the notes to the financial statements, in fiscal year 2021 the County adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Walker County, Texas' basic financial statements. The introductory section, combining and individual fund financial statements and schedules, statistical section, and the Schedule of Expenditures of Federal and State Awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the State of Texas *Uniform Grant Management Standards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and the Schedule of Expenditures of Federal and State Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and the Schedule of Expenditures of Federal and State Awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by **Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated March 17, 2022, on our consideration of Walker County, Texas' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Walker County, Texas' internal control over financial reporting and compliance.

Management's Discussion and Analysis

The following discussion and analysis of Walker County, Texas' financial performance provides an overview of Walker County, Texas' financial activities for the year ended September 30, 2021. Please read this discussion and analysis in conjunction with the transmittal letter at the front of this report and Walker County, Texas' financial statements, which follow this section. Walker County, Texas has prepared this financial report in compliance with the Governmental Accounting Standards Board (GASB) Statement No. 34 and GASB 54 and amendments thereafter.

FINANCIAL HIGHLIGHTS

- On a government-wide basis, the liabilities and deferred inflows of Walker County, Texas exceeded its assets and deferred outflows at the close of its most recent fiscal year by \$2,279,988 (net position). The unrestricted net position is a negative (\$11,962,454). Governments are required to reduce their net position by the unfunded liability for future payments to the employee's retirement system, even though, annual funding requirements are being met. Governments are also required to reduce their net position by the unfunded liability for postemployment benefits other than pensions (OPEB). Unrestricted net position is the amount that may be used to meet the ongoing obligations to citizens and creditors. The County's net investment in capital assets equaled \$6,724,724 and restricted net position for debt or grants or by legislation, totaled \$2,957,742.
- On a government-wide basis for governmental activities, Walker County, Texas had expenses net of program revenue of \$24,410,409. General revenues of \$27,536,759 were \$3,126,350 greater than expenses net of program revenue. The change in unrestricted is primarily due to the increase in net pension and OPEB liabilities.
- The General Fund, on a current financial resource basis (fund level), reported a positive net change in fund balance of \$4,565,979 as compared to a budgeted reduction of \$3,210,730, approximately ½ of the amount the result of not spending multiyear budgeted project funds, expenditures less than budget and revenues over budget.
- As of September 30, 2021, unassigned fund balance in the General Fund was \$12,556,250. The total unassigned Fund Balance for the prior year was \$9,299,766.
- Unassigned Fund balance as a percentage of expenditures for the General Fund is 56%, an amount that exceeds the minimum requirement goal (16.67%) set by Commissioners' Court. The adopted budget for FY 2021 included use of fund balance for one-time expenditures. The amount included in the FY 2021 budget is classified as Fund Balance Assigned for Subsequent Budget in the financial report and is not included in the Unassigned Fund Balance number mentioned above. See Note B and Note L for a discussion of the Fund Balance classifications.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis narrative is intended to serve as an introduction to Walker County, Texas' basic financial statements. Walker County, Texas' Annual Comprehensive Financial Report consists of five sections: introductory, financial, supplementary, statistical, and compliance. The financial section of this report has five components - independent auditors' report, management's discussion and analysis (this narrative), the basic financial statements, required supplementary information, and combining statements and budget comparisons as supplementary information.

Basic Financial Statements

The basic financial statements include: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

The primary focus of these financial statements is on both Walker County, Texas as a whole (government-wide financial statements) and individual parts of Walker County, Texas (fund financial statements). The government-wide financial statements provide both long-term and short-term information about Walker County, Texas' overall financial status. The fund financial statements, on the other hand, focus on individual parts of Walker County, Texas and provide more detail of Walker County, Texas' operations than the government-wide financial statements.

Government-wide Financial Statements — The government-wide financial statements report information about Walker County, Texas as a whole using accounting methods similar to those used by private-sector companies. The statement of net position and the statement of activities, which are the government-wide statements, report information about Walker County, Texas as a whole and about its activities in a way that helps answer whether Walker County, Texas is in a better or worse financial position as a result of the current year's activity. The statement of net position presents information on all of the assets and liabilities of Walker County, Texas with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial condition of Walker County, Texas is improving or deteriorating. Other non-financial factors, such as Walker County, Texas' property tax base and the condition of Walker County, Texas' infrastructure, need to be considered to assess the overall health of Walker County, Texas. These statements include all assets and liabilities on the accrual basis of accounting.

The statement of activities presents information showing how Walker County, Texas' net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows (cash is received or paid). Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave.) Again, this reflects the accrual method of accounting, rather than the modified accrual basis that is used in the fund level financial statements.

Government-wide financial statements of a government distinguish functions that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business activities). Walker County, Texas has no business type activities. Services provided by Walker County, Texas reported as governmental activities include general government, financial, judicial, public safety, correction and rehabilitation, health and welfare, culture and education, public transportation, and interest and fiscal charges. Walker County, Texas' financial statements include only the primary government and do not include other governments or component units such as a county hospital or school district.

Fund Financial Statements — A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Walker County, Texas, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Traditional users of government financial statements will find the fund financial statement presentation more familiar. The fund financial statements provide more detailed information about Walker County, Texas' most significant funds, rather than Walker County, Texas as a whole. Funds of Walker County, Texas are divided into two categories: governmental funds and fiduciary funds.

Governmental Funds — Governmental funds are used to account for essentially the same functions as governmental activities in the government-wide financial statement. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financing requirements. Walker County, Texas' basic services are included in the governmental funds. The governmental funds financial statements provide a detailed short-term view that helps readers of the financial statements determine the availability of financial resources to fund Walker County, Texas' major programs. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Walker County, Texas' report includes thirty-five individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Debt Service Fund, Grants and Contracts Fund, Road and Bridge Fund, and the EMS Fund, which are considered to be major funds. Data from the thirty other funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements beginning on page 107.

Walker County, Texas adopts an annual appropriated budget for all of its governmental funds except for the Sherriff Commissary Fund that was reclassified during Fiscal Year 2021. Budgetary comparison statements have been provided for the general fund and other funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found beginning on page 42.

Proprietary Funds — There are two types of proprietary funds, enterprise funds and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Walker County, Texas does not currently have any enterprise funds.

Internal service funds are used by some state and local governments to accumulate and allocate costs internally among the unit's various functions. They may be used for such things as a central garage or for its management of information systems. Walker County, Texas has one internal service fund, the retiree health insurance fund. The financial statements for this fund can be found beginning on page 49.

Fiduciary Funds — Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support Walker County, Texas' programs. The accounting used for fiduciary funds is much like that used for proprietary funds. Walker County, Texas is the trustee, or fiduciary, for assets which are held by Walker County, Texas as an agent, pending distribution to authorized recipients. Walker County, Texas currently maintains custodial funds only. As an example, the County Clerk and District Clerk each function in a fiduciary capacity.

Notes to the Financial Statements — The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 55 to 77 of this report.

Required Supplementary Information — In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning Walker County, Texas. Walker County, Texas adopts an annual budget for its General Fund and special revenue funds including its Road and Bridge Fund. Required supplementary information begins on page 81 of this report. Budgetary comparison schedules have been prepared to demonstrate compliance with the budget for the General Fund, Road and Bridge Fund, EMS Fund and the Grants and Contracts Fund. The County also presents a schedule of funding progress for its pension plan and its OPEB plan as required. Information for the Non-Major Governmental Funds begins on page 107.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Below is condensed financial information for the fiscal year 2021 with comparative data for 2020. The following schedule focuses on the net position of Walker County, Texas as a whole and gives data as of September 30th (Walker County, Texas' fiscal year end date) of each year.

Total Net Position	<u>\$ (2,279,988)</u>		<u>\$ (5,523,246)</u>		<u>\$ 3,243,258</u>	-59%

As mentioned earlier, net position may serve over time as a useful indicator of a government's financial position. Liabilities and deferred inflows of resources exceed assets and deferred outflows of resources by \$2,279,988 at September 30, 2021 as compared to \$5,523,246 at September 30, 2020. Investment in capital assets (land, buildings, machinery and equipment) less any related debt used to acquire those assets that is still outstanding totals \$6,724,724. Walker County, Texas uses these capital assets to provide services to citizens; consequently these assets are not available for future spending. Although investments in capital assets is reported net of debt, it should be noted that the resources to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the assets at fiscal year-end represent resources that are subject to restrictions on how they may be used. \$288,653 is restricted for Debt Service and \$2,669,089 is restricted for grants and purposes defined by legislation. Net position not restricted or invested in capital assets may be used to meet the government's ongoing obligations to citizens and creditors. The unrestricted net position at fiscal year-end is a negative (\$11,962,454). The deficit is due to the implementation of GASB 68, GASB 71, and GASB 75, which forces a major change in the method for accounting for unfunded liabilities for future payments to the employee's retirement system and for postemployment benefits other than pensions, even if, annual funding requirements are being met. For Walker County, Texas, the cumulative effect of this reduction since GASB 68, GASB 71 and GASB 75 were implemented has amounted to \$38,126,224. Currently the employee's retirement system is funded at 81%. Additional information on the liability for the retirement system is found in Note III. J to the financial statements, beginning on page 70 of this report and additional information for OPEB is found in Note III. K to the financial statements, beginning on page 74 of this report.

Government-wide Activities — There was a difference in revenues over expenses of \$3,126,350 reported on the Statement of Activities on a government-wide view. Included in the expenses are \$1,314,989 for OPEB expense and \$984,005 for pension expense. In addition, the addition of capital assets and reduction of debt exceeded depreciation by \$359,220. Key elements of the overall increase in net position are as follows:

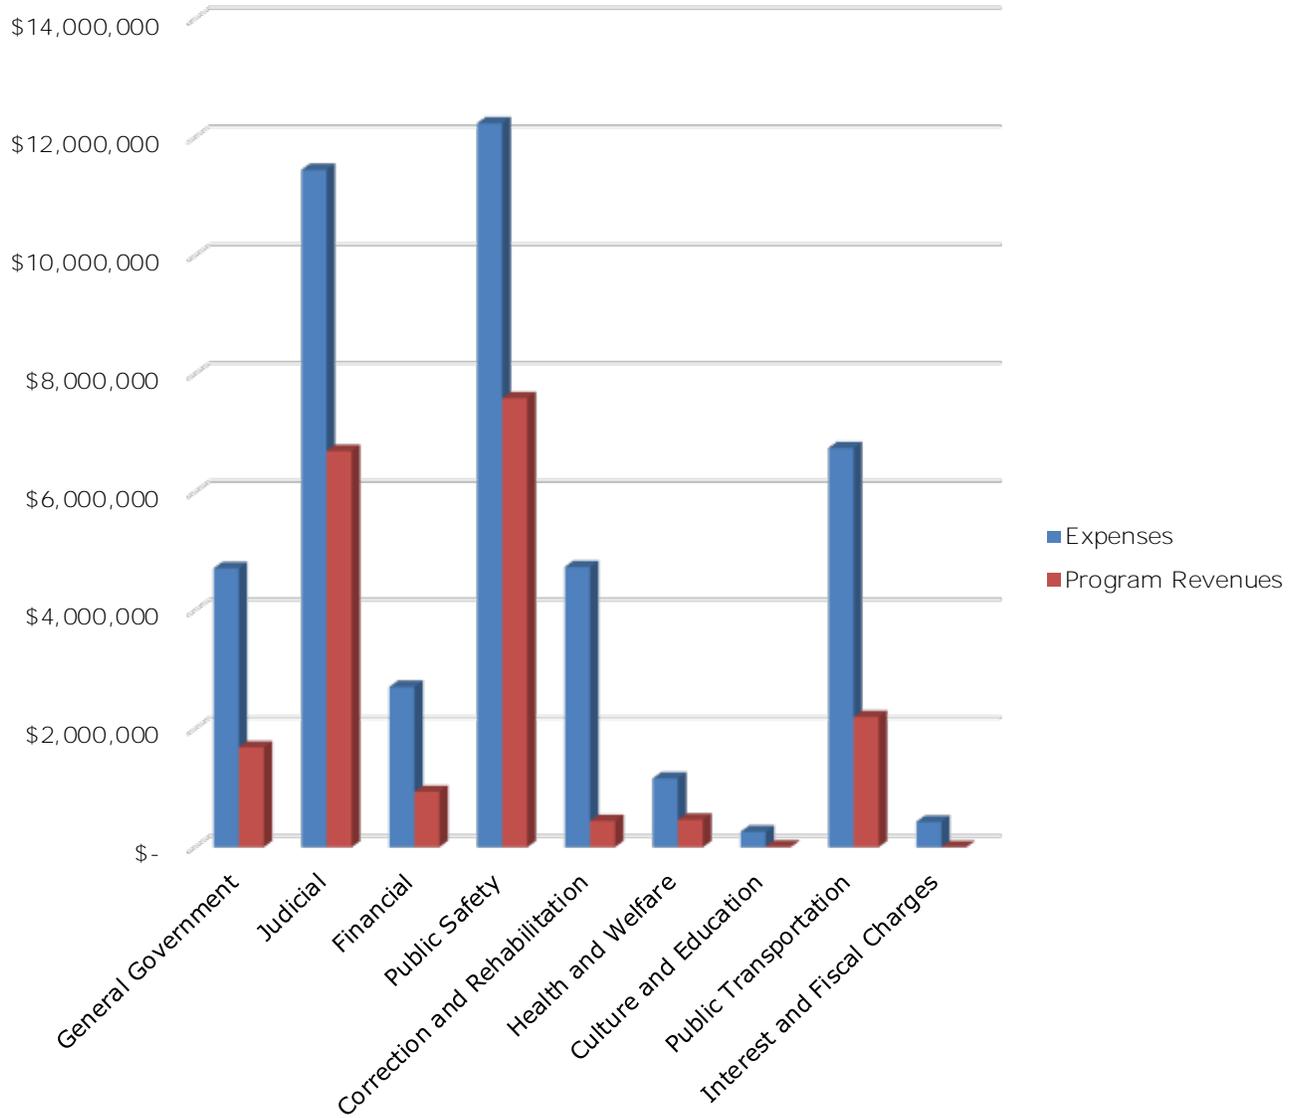

- Operating grants and contributions increased approximately \$2.4 million primarily due to recognizing new grant revenue from the American Rescue Plan.
- Property and sales taxes increased due to steady population growth leading to new taxable property and increased economic activity.
- Expenses increased less than revenues compared to the prior year; the primary cause of increased expenses was in the public safety function related to increased salaries in the Sheriff and EMS departments.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, Walker County, Texas uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Walker County, Texas maintains several governmental funds.

Governmental Funds - The focus of Walker County, Texas' governmental funds is to provide information of near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Walker County, Texas' financing requirements. In particular, unassigned fund balance may serve as a useful measure of Walker County, Texas' net resources available for spending at the end of the fiscal year.

Walker County, Texas' governmental funds reflect a combined ending fund balance of \$26,244,315 compared to \$21,453,071 in the prior year, an increase of \$4,791,244. The amount includes decreases in the Road and Bridge Fund of \$541,635 due primarily to spending of grant funds that were received in the prior fiscal year. Increases in other funds include General Fund, \$4,565,979, Debt Service Fund, \$34,302, EMS Fund, \$455,093, and other governmental funds of \$160,597. Fund balance in the Grants and Contracts fund remained the same.

As required by GASB Statement 54, fund balances are classified as restricted, committed, assigned or unassigned. Unassigned fund balance as of September 30, 2021 is \$12,555,920 compared to \$9,299,766, a difference of \$3,256,154 from the prior year. This amount is available for day-to-day operations of Walker County, Texas. Included in this increase is American Rescue Funds (Federal monies) of approximately \$2,777,000 booked as revenue in FY 21. These funds were used to fund operating costs (a portion of Public Safety salaries).

One measure of liquidity is to compare fund balance to total fund expenditures. The unassigned fund balance in the General Fund is approximately 56% of General Fund expenditures. Revenues in all categories except for interest income exceeded budget. In total, the General Fund revenues exceeded the revised budget by \$3,163,628. Monies included in the General Fund for projects that were not spent during the fiscal year total \$2,958,645. These project monies are carried forward to the next budget year (FY 2022) for these projects. Vacancies and unfilled positions also resulted in expenditures less than budgeted. A presentation follows at the end of this section showing a comparison by category.

There was not a significant net change in Fund Balance in the Debt Service Fund. The increase was \$34,302.

Walker County, Texas continues to apply for and receive various grants. At year end accruals and deferred revenues are booked as appropriate. Fund balance for grant funds remained the same.

The fund balance of the Road and Bridge Fund, a fund used to account for the costs of providing road maintenance to Walker County, Texas is \$3,375,580, a decrease from \$3,917,215 at the prior fiscal year end, due primarily to spending funds received in prior years. Unspent funds continue to be committed for road maintenance in future years.

The Walker County EMS fund has a fund balance of \$1,574,408 at year end, an increase from \$1,119,315 at the end of the prior fiscal year primarily due to an increase in emergency calls, an increase in collections, and American Rescue Plan funds (Federal monies) being used to fund salary costs.

Information follows that shows the comparisons by category for the General Fund.

Internal Service Fund - The focus of Walker County, Texas' internal service fund is to accumulate and allocate costs for retiree health insurance. The net position of the Retiree Health Insurance fund is \$2,001,551 at year end which is an increase of \$110,207 from the prior fiscal year end.

GENERAL FUND BUDGETARY HIGHLIGHTS

As required by GASB 54, funds previously budgeted in Other Governmental Funds and the Projects Fund are now reported in the General Fund. The Projects budget items are adopted by Commissioners' Court as a multi-year budget and the project budget items do not lapse at fiscal year-end. The remaining funds from projects approved in prior years that have not completed are reflected as amendments to the original budget for FY 2021 (current year). The portion of fund balance that was committed for projects is \$2,958,500 at the end of the fiscal year ended September 30, 2021. Project expenditures for the fiscal year were \$174,123, primarily for facilities major repairs and software improvements.

Actual General Fund revenues exceeded the amended budgeted General Fund revenues, and departmental expenditures were less than the amended budget during the year ended September 30, 2021. The chart below highlights the changes by category. A summary by category by department of the expenditure budgets for the General Fund is presented beginning of page 83. The Salaries/Other Pay/Benefits shows, the largest category in the General Fund budget shows a significant difference in the budget and the actual. This is due to vacancies throughout the year. Projects funds are available that were not spent in the current year and will be available for expenditure in future years. Sales tax and other taxes showed collections well in excess of the budget and the collection rate for ad valorem taxes was greater than budgeted. The intergovernmental revenues greatly exceeded the budget. American Rescue Plan Funds (Federal Funds) of \$1,642,000 were booked in the General Fund for FY 21.

Net Change in Fund Balances	<u>\$ (3,210,730)</u>		<u>\$ 4,565,979</u>		<u>\$ 7,776,709</u>	

The Original Budget included a planned reduction of fund balance for one-time capital expenditures, budgeted projects, contingency line items and a transfer to the Road and Bridge Fund for special projects. The major reason the reduction did not materialize is that the budgeted Project monies were not spent and the booking of the American Rescue Plan funds, as is indicated in the chart above. It is the policy of the County to maintain the fund balance at 16.67% to 25% (2 to 3 months) of the operating budget. County policy is that the fund balance not be drawn down to fund on-going operating costs. The actual difference between revenues and expenditures was an increase to fund balance in the amount of \$4,565,979.

The difference between the original General Fund expenditure budget and the final amended General Fund budget is \$786,644; the original and final amended budgeted transfers **decreased** by \$579,330. The additional expenditure increase was for program expenditures that were funded by insurance proceeds, and other revenues, primarily, grant, state, or interagency revenues that were offset by additional revenues. A budgetary comparison for the General Fund can be found in the required supplementary information section beginning on page 81.

Increases to the revenue budget total \$1,343,320. The budgeted revenue increase includes an increase from insurance reimbursements of \$128,891, and increases in the Intergovernmental revenues budget of \$1,147,276, monies received from State and Federal programs and other revenue increases of \$67,153.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets — Walker County, Texas' investment in capital assets on a government-wide basis as of September 30, 2021 is \$19,452,802 (net of accumulated depreciation). Included in this total is \$680,552 in land. Investment in capital assets includes land, buildings, improvements, machinery and equipment, and bridges. As required by GASB Statement 34, depreciation is included for all depreciable assets on the government-wide statements.

Significant capital asset transactions for the year included the purchases of a soil stabilizer and a chip spreader for public transportation for approximately \$400,000 and \$340,000, respectively, and the purchase of a new ambulance for approximately \$240,000.

Additional information on the County's capital assets can be found in Note III. E to the financial statements.

Long-term Debt — In June of 2012, a certificate of obligation in the amount of \$20,000,000 was issued for the construction of a county jail. At the time of that debt issue, Walker County, Texas was debt free. The debt issued for the jail construction is to be paid off over a 20 year period. County policy requires that the term of payment must in all cases be less than the expected life of the asset. Debt outstanding as of September 30, 2021 is \$12,435,000.

All debt is backed by the full faith and credit of the government, meaning that Walker County, Texas has pledged to levy a property tax sufficient to pay the debt. An interest and sinking tax is levied each year to pay the debt.

For the fiscal year ended September 30, 2021, payments on certificates of obligation debt totaled \$935,000.

Additional information on debt can be found in Note III. F to the financial statements. In addition to debt for certificates of obligation, Walker County, Texas has recorded debt for compensated absences of \$1,277,814 and a note from direct borrowings of \$225,959.

ECONOMIC FACTORS, BUDGET AND RATE INFORMATION FOR FY BEGINNING OCTOBER 1, 2020

- The unemployment rate in the County for 2021 was 7.7%, as compared to the state unemployment rate of 6.6% and national unemployment rate of 5.9%. This rate compares to 8.0% for the prior year according to information provided by the Texas Workforce Commission. Walker County has traditionally had very stable employment, due primarily to an economy based on employment at Sam Houston State University and Texas Department of Criminal Justice. The State's prison system is headquartered in Walker County with seven major facilities housing an estimated 12,412 inmates.
- The new improvement/construction value added to the tax roll for FY 2022 (tax year 2021) totaled \$165,817,116 as compared to \$165,488,446 for the prior year.
- Commissioners' Court approved a \$43,227,189 expenditure budget for FY 2022, an increase from the \$39,343,885 budget for the 2021 fiscal year.
- The tax rate adopted for the FY 2022 budget is \$0.4799 per \$100 of valuation, down from the \$0.4808 for FY 2021. The rate adopted was the no-new revenue tax rate of \$0.4499 plus \$0.03 and was lower than the prior year as a result of growth in the tax base.
- Walker County revenues for FY 2022 at the date of this report generally continue to be in line with expectations. Total sales tax receipts in FY 2022 are up approximately 15% from FY 2021. Charges for service revenues as a total are in line with the budget. Ad valorem tax collections are at the approximate same percentage of levy through February. Walker County continues to closely monitor its revenues and expenditures.

WALKER COUNTY, TEXAS

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2021

I. Summary of Significant Accounting Policies

A. Reporting Entity

The government of Walker County, Texas is a political subdivision of the State of Texas, formed in 1846. The basic financial statements of Walker County, Texas (the "County") have been prepared in conformity with accounting principles applicable to governmental units which are generally accepted in the United States of America. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The County's basic financial statements include the accounts of all its operations. The County evaluated whether any other entity should be included in these financial statements. The criteria for including organizations as component units within the County's reporting entity, as set forth in GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34," include whether:

- The organization is legally separate (can sue and be sued in its name)
- The County holds the corporate powers of the organization
- The County appoints a voting majority of the organization's board
- The County is able to impose its will on the organization
- The organization has the potential to impose a financial benefit/burden on the County
- There is fiscal dependency by the organization on the County

Based upon the application of these criteria to various separate entities, the organizations are classified as blended or discrete component units, related organizations, joint ventures, or jointly governed organizations with the financial disclosure treated accordingly. The following is a brief review of each potential component unit addressed in defining the government's reporting entity.

Related Organizations - Where the Commissioners' Court is responsible for appointing a majority of the members of a board of another organization, but the County's accountability does not extend beyond making such appointments, disclosure is made in the form of the relation between the County and such organization.

Walker County Emergency Services District No. 1 & No. 2

The emergency services districts are organized under the statutes of the State of Texas as political subdivisions of the State to provide protection from fire for life and property. Although Commissioners' Court appoints a five-member board for each district, the individual boards retain exclusive authority to levy taxes, issue bonded debt and approve appropriation budgets. Each district is required by statute to provide audited financial statements to the County as a matter of record.

B. Basis of Presentation, Measurement Focus, Basis of Accounting

1. Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the activities of the primary government, including long-term assets and liabilities. These statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, interfund services provided and used are not eliminated in the consolidation process.

The government-wide statement of activities reports expenses and revenue in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (such as user charges or intergovernmental grants). Amounts reported as program revenues include 1) charges to customers for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Revenues that are generated internally are reported as general revenues, including property taxes. This presentation reflects both the gross and net cost per functional category (general government, financial, public safety, etc.), which are otherwise being supported by general government revenues (property taxes, earnings on investments, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues. The program revenues must be directly associated with the function (general government, financial, public safety, etc.).

2. Fund Financial Statements

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a current financial resources measurement focus and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Under this basis of accounting revenues are recognized when they become susceptible to accrual (i.e., both measurable and available.) Available means collectible within the current year or soon enough thereafter to pay liabilities within 60 days of the end of the current fiscal period. Substantially all revenues are considered to be susceptible to accrual. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Principal and interest on long-term debt are recognized as expenditures when due.

Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented which briefly explains the adjustments necessary to reconcile fund-based financial statements with the governmental column of the government-wide presentation.

The County reports the following major governmental funds:

The **General Fund** is the County's primary operating fund. It is used to account for all financial transactions not properly includable in other funds. The principal source of revenue is local property taxes. Expenditures include all costs associated with the daily operations of the County.

The **Debt Service Fund** accounts for the servicing of long-term debt using Interest and Sinking ad valorem property taxes.

The **Road and Bridge Fund** is used to account for the costs associated with the construction and maintenance of roads and bridges. Revenues are derived mainly from ad valorem taxes, intergovernmental revenues, and fees and fines.

The **Walker County Emergency Medical Service (EMS) Fund** is used to account for all financial transactions incurred by providing emergency medical and ambulance services to the public.

The **Grants and Contracts Fund** accounts for grants and contracts the County enters into with the State of Texas and the federal government.

The County's proprietary fund financial statements are reported under the accrual basis of accounting and the economic resources measurement focus. Revenues are recognized when earned, and expenses are recognized when they are incurred. Claims incurred but not reported are included in payables and expenses. All assets and liabilities (whether current or non-current) associated with their activity are included in the funds statement of net position.

The County reports one proprietary fund:

The **Internal Service fund** is used to report activities that provide goods or services to other funds of the County. This fund accounts for retiree health benefits for eligible employees provided to other County departments. The Internal Service Fund receives revenues on a cost-reimbursement basis.

The County's fiduciary funds are presented in the fund financial statements by type. Since, by definition, these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements. The County reports custodial funds under the accrual basis of accounting and the economic resources measurement focus. A statement of fiduciary net position and statement of changes in fiduciary net position are presented within the basic financial statements.

The County reports one type of fiduciary fund:

The **Custodial funds** are used to account for assets held by the County as an agent on behalf of various third parties outside of the County.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

C. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the County are reported at fair value, except for the position in investment pools. The County's investments in Pools are reported at the net asset value per share (which approximates fair value) even though it is calculated using the amortized cost method. The County's investment pools have a redemption notice period of one day and may redeem daily. The investment pools' authority may only impose restrictions on redemptions in the event of a general suspension of trading on major securities markets, general banking moratorium or national state of emergency that affects the pools' liquidity.

2. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The cost of inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

3. Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

4. Capital Assets

Capital assets used in governmental fund types of the government are recorded as expenditures of the General Fund, EMS Fund, Road and Bridge Fund, and Special Revenue Funds and as assets in the government-wide financial statements to the extent the County's capitalization threshold is met, currently \$5,000. Depreciation is recorded on capital assets on a government-wide basis. Major outlays for capital assets and improvements are capitalized as projects are constructed and subsequently depreciated over their estimated useful lives on a straight-line basis at the government-wide levels.

All capital assets are valued at historical cost or estimated historical cost if actual cost was not available, except for federal surplus property, which is required to be recorded at fair market value. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are recorded at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized and are not included.

Land and construction in progress are not depreciated.

Upon sale or retirement of capital assets, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and the resulting gain or loss is included in the results of operations.

Capital assets are being depreciated over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Vehicles	4-7
Furniture and Fixtures	1-10
Machinery and Equipment	5-20
Buildings	5-20
Building improvements	3-20
Infrastructure	20-40

5. Compensated Absences

The County's policy permits employees to accumulate earned but unused vacation, compensatory time and sick pay benefits. Vested or accumulated leave that is expected to be liquidated with expendable financial resources is reported as an expenditure of the governmental fund when paid.

Amounts not expected to be liquidated with expendable available financial resources are reported as long-term debt in the government-wide statements for governmental funds. These amounts are calculated using employee pay rates in effect at year-end. No expenditure is recognized as incurred for these amounts until the actual leave time is used.

All compensated absences and related liabilities are recorded in the government-wide financial statements. However, compensated absences are reported in governmental funds only if they have matured unused reimbursable leave still outstanding following an employee's resignation or retirement.

6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has the following items that qualify for reporting in this category:

- Pension contributions after measurement date – These contributions are deferred and recognized in the following fiscal year.
- Difference in expected and actual pension and OPEB experience - This difference is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.
- Changes in actuarial assumptions related to the pension and OPEB plans – These changes are deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.

In addition to liabilities, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has three types of items that qualify for reporting in this category.

- Unavailable revenue is reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
- Difference in expected and actual pension and OPEB experience - This difference is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.
- Difference in projected and actual earnings on pension assets – This difference is deferred and amortized over a closed five-year period.

7. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas County and District Retirement System (TCDRS) and additions to/deductions from TCDRS's Fiduciary Net Position have been determined on the same basis as they are reported by TCDRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

8. Other Post-Employment Benefits

Retiree Health Care Plan. For purposes of measuring the total OPEB liability, OPEB related deferred outflows and inflows of resources, and OPEB expense, benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Contributions are not required but are measured as payments by the County for benefits due and payable that are not reimbursed by plan assets. Information regarding the County's total OPEB liability is obtained from a report prepared by a consulting actuary, CapRisk Consulting Group.

9. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the County's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

10. Fund Balance Flow Assumptions

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

11. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The County itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the County's highest level of decision-making authority. The governing body is the highest level of decision-making authority for the County that can, by adoption of an order prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the order remains in place until a similar action is taken (the adoption of another order) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as committed. The Commissioners' Court may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

The Order adopted by Commissioners Court resulted in the fund balance of the Debt Service Fund and Legislatively Designed Funds (Other Funds) being classified as restricted. Fund Balance of the Road and Bridge Fund and EMS Fund being classified as committed. Fund Balance in the General Fund has funds committed for projects and includes both assigned fund balance and unassigned fund balance.

Additionally, the County has a policy to maintain a General Fund balance of generally two to three months cash flow. At a minimum, the goal is to maintain at least a fund balance in the 16.67% range of the operating costs reflected in the most current General Fund budget. No minimum fund balance is required for other funds of the County.

12. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgets

The statutes of the State of Texas provide that "the amounts budgeted in a fiscal year for expenditures from the various funds of the County may not exceed the balances in those funds as of the first day of the fiscal year, plus the anticipated revenue for the fiscal year as estimated by the County Auditor." In addition, the law provides that the Commissioners' Court may, upon proper application, transfer an existing budget (during the year) to a budget of like kind but no such transfer shall increase the total of the budget.

An itemized budget must be prepared to allow as clear a comparison as practicable between the proposed budget and actual expenditures for the same of similar purposes that were made for the preceding fiscal year. The budget must contain a complete financial statement of the County that shows: 1) the outstanding obligations of the County; 2) the cash on hand to the credit of each fund of the County government; 3) the funds received from all sources during the preceding year; 4) the funds available from all sources during the ensuing fiscal year; 5) the estimated revenues available to cover the proposed budget; and 6) the estimated tax rate required to cover the proposed budget.

On or before the second Monday in July each year, all agencies of the County submit requests for appropriations to the County Judge so that a budget may be prepared. A copy of the proposed budget must be filed with the Clerk of the County Court and made available to the public by August 15th. Before September 30, the proposed budget is presented to the Commissioners' Court for review and adoption. The Court holds public hearings as necessary and may add to, subtract from, or change appropriations but may not change the form of the budget.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds, except for the Sheriff's Commissary Fund. That fund, previously classified as an agency fund, was transitioned to a special revenue fund in Fiscal Year 2021 upon implementation of GASB 84 and will be included in the adopted budget for Fiscal Year 2022. The legal level of budgetary control is the category defined as Salary, Other Pay and Benefits, Operations, Capital Expenditures and Transfers. The budget is prepared by fund, function, department, and category and includes information about the past year current year estimates and requested appropriations for the next fiscal year. The County's department heads may make transfers of appropriations within categories established for their departments. Transfers of appropriations between categories and/or departments require a budget amendment and approval of Commissioners' Court. All annual appropriations lapse at fiscal year-end.

Encumbrance accounting is employed in governmental funds. Encumbrances represent commitments related to unperformed contracts for goods or services. Available funds are encumbered during the year upon execution of purchase orders, contracts, or other appropriate documents in order to reserve that portion of the applicable appropriation. As all encumbrances lapse at year end, those encumbrances (e.g. purchase orders, contracts) outstanding at September 30 must be reappropriated in the budget of the subsequent year.

For the year ended September 20, 2021 expenditures exceeded appropriations at the salary, other pay, and benefits level by \$358 in the Juvenile Grant Fund and at the operations level in the DA Prosecutor's Supplement Fund by \$3,837 and \$863 in the Juvenile Grant Fund. These expenditures were funded by existing fund balance.

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

The County's funds are required to be deposited under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the County's agent bank approved pledged securities in an amount sufficient to protect County funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

1. Cash Deposits

The County's cash and cash equivalents as of September 30, 2021 are summarized as follows:

	Carrying Amount
Cash deposits	\$ 14,820,290
Investments considered cash and cash equivalents	
Wells Fargo Investment Portfolio - USA Mutuals	6,389,973
TexPool	15,796,595
Texas Class	3,557,722
Investors Cash Trust	<u>518,653</u>
Total Cash and Cash Equivalents	<u>\$ 41,083,233</u>

2. Investments

The County is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must be written; primarily emphasize safety of principal and liquidity, address investment diversification, yield, and maturity and the quality and capability of investment management; and include a list of the types of authorized investments in which the investing County's funds may be invested; and the maximum allowable stated maturity of any individual investment owned by the County.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the County adhered to the requirements of the Act. Additionally, investment practices of the County were in accordance with local policies.

The Act determines the types of investments which are allowable for the County. These include, with certain restrictions, (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) securities lending program, (5) repurchase agreements, (6) mutual funds, (7) investment pools, (8) guaranteed investment contracts, and (9) commercial paper.

The County invests surplus funds in accordance with its investment policy. The investments are in investment pools which are not categorized securities that exist in physical or book entry form. The fair value of the position in the external investment pool is the same as the value of the pool shares.

The County categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy above.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The County's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The County presently has no recurring fair value measurements.

The State Comptroller of Public Accounts exercises oversight responsibility over TexPool, the Texas Local Government Investment Pool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The Advisory Board members review the investment policy and management fee structure. There is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. To minimize credit risk, TexPool's investment policy allows the portfolio's investment manager to only invest in obligations of the U. S. Government, its agencies; repurchase agreements; and no-load AAAM money market mutual funds registered with the SEC. TexPool is rated AAAM by Standard & Poor's. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poor's, as well as the office of the Comptroller of Public Accounts for review.

The Texas Cooperative Liquid Assets Securities System Trust (Texas CLASS) was created as an investment pool for its participants pursuant to Section 2256.016 of the Public Funds Investment Act, Texas Government Code. The County participates in this external investment pool for state and local governments to maintain the liquidity of its funds and to maximize yield in accordance with Public Funds Investment Act (the "Act"), Section 2256.01, et seq., Texas Government Code. The Texas CLASS Trust Agreement is an agreement of indefinite term regarding the investment, reinvestment and withdrawal of local government funds. The parties to the Trust Agreement are Texas local government entities that choose to participate, Cutwater Investor Services Corp. as Program Administrator, and Wells Fargo Bank Texas, NA as Custodian. The Board of Trustees has appointed an Advisory Board composed of participants and other persons who do not have a business relationship with the Trust and are qualified to advise the Trust. The Advisory Board provides advice to the Board of Trustees and the Program Administrator about the investment policy and investment strategy of the trust and about other matters as requested by the Board of Trustees and the Program Administrator. Texas CLASS's investment credit quality rating was AAAM by Standard & Poor's.

3. Analysis of Specific Deposit and Investment Risks

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. It is the County's policy to focus on safety and liquidity. The current policy is to invest only in securities with credit ratings of not less than AA or its equivalent as rated by a nationally recognized rating service. At year end, the County was not significantly exposed to credit risk. As of September 30, 2021, the government's investment in all investment pools were rated at least AAAM by Standard & Poor's and insured cash shelters which are federally insured cash accounts.

b. Custodial Credit Risk

This is the risk that in the event of bank failure, the County's deposits may not be returned to it. The County was not exposed to custodial credit risk since its deposits at year-end and during the year ended September 30, 2021, was covered by depository insurance or by pledged collateral held by the County's agent bank in the County's name.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the County was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its written policy, the County manages this risk by limiting the maximum allowable stated maturity of any individual investment to 2 years, at the time of purchase.

B. Receivables

Receivables, including applicable allowances for uncollectible accounts, as of September 30, 2021 are as follows:

	General	Debt Service	Road and Bridge	EMS	Grants and Contracts	Nonmajor Governmental	Total
Receivables:							
Taxes	\$ 1,477,303	\$ 102,700	\$ -	\$ -	\$ -	\$ -	\$ 1,580,003
Accounts	119,702	-	-	3,621,224	184,956	17,690	3,943,572
Due from other governments	919,618	-	51,910	45,376	1,008,314	31,975	2,057,193
Due from others	71,066	-	30	17,098	320	-	88,514
	<u>2,587,689</u>	<u>102,700</u>	<u>51,940</u>	<u>3,683,698</u>	<u>1,193,590</u>	<u>49,665</u>	<u>7,669,282</u>
Less: allowance for uncollectibles	(438,445)	(30,480)	-	(2,715,918)	-	-	(3,184,843)
Total	<u>\$ 2,149,244</u>	<u>\$ 72,220</u>	<u>\$ 51,940</u>	<u>\$ 967,780</u>	<u>\$ 1,193,590</u>	<u>\$ 49,665</u>	<u>\$ 4,484,439</u>

Governmental funds report unearned revenue in connection resources that have been received, but not yet earned. As of September 30, 2021, the various components of unearned revenue reported in the governmental funds are as follows:

	<u>Unearned</u>
Grant funds received prior to meeting eligibility requirements	\$ <u>4,346,069</u>
Total unearned revenue for governmental funds	\$ <u>4,346,069</u>

C. Property Taxes

The County's tax year covers the period October 1 through September 30. The County's property taxes are levied annually in October on the basis of the Walker County Appraisal District's ("WCAD") assessed values as of January 1 of that calendar year. The WCAD establishes appraised values at 100% of market value less exemptions. The County's property taxes are billed and collected by the Walker County Appraisal District. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed.

1. 2020 Tax Year

Property taxes are prorated between the General, Road and Bridge, and Debt Service Funds based on rates adopted for the year of the levy. For the 2021 fiscal year (2020 tax year), the County levied property taxes of \$0.4808 per \$100 of assessed valuation. The 2020 rates resulted in total tax levies of approximately \$21.9 million based on a total adjusted valuation of approximately \$4.7 billion. The total tax rate in the 2020 tax year was prorated as follows:

	<u>2020 Rate</u>
General Fund/Road and Bridge	\$ 0.4508
Debt Service Fund	<u>0.0300</u>
Total Tax Rate	\$ <u>0.4808</u>

2. Walker County Appraisal District

Walker County Appraisal District ("WCAD"), a separate governmental entity, is responsible for the recording and appraisal of property for all taxing units in the County.

The WCAD is required by state law to assess property at 100% of its appraised value. Further, real property must be appraised at least every three years. Under certain circumstances, the taxpayers and taxing units, including the County, may challenge orders of the WCAD's Appraisal Review Board through various appeals and, if necessary, legal action may be taken.

3. Tax Abatements

The County enters into property tax abatement agreements with local businesses under the property Tax Code, Chapter 312, cited as the Property Redevelopment and Tax Abatement Act. Under the Act, the County is eligible to establish Enterprise Zones and participate in a tax abatement. The County has established a Tax Increment Reinvestment Zone (TIRZ) program to establish guidance for the tax abatements. The tax abatements, which are meant to stimulate economic development, are applicable to commercial and/or industrial improvements on a case-by-case basis. The tax abatement only applies to the increase in the value of the property due to improvements.

For the fiscal year ended September 30, 2021, the County abated property taxes totaling \$3,421 under this program, including the following tax abatement agreement:

- A 40 percent property tax abatement on the assessed value of improvements to a manufacturing company. The property value abatement amount for 2021 is \$711,692

In September of 2004, Walker County entered into an interlocal agreement with the City of Huntsville to participate in the Tax Increment Reinvestment Zone (TIRZ) created by the City of Huntsville City Ordinance number 2004-16 dated August 2004. The TIRZ is generally along the west side of I-45 and south of SH30. The term of the TIRZ was established at 20 years. The TIRZ is a contiguous geographic area within the city limits of Huntsville designated as Tax Reinvestment Zone Number One, City of Huntsville, Texas for Tax Increment Financing purposes pursuant to Chapter 311 of the Texas Tax Code. The board of directors consists of 7 members, positions 1 to 4 reserved for the City of Huntsville, positions 5 thru 6 reserved for Walker County and position 7 reserved for Huntsville Independent School District.

Per the agreement, Walker County agreed to participate by contributing 50% of its ad valorem tax rate up to a maximum of \$0.3125 per hundred dollars of the annually calculated tax valuation within the TIRZ. Assessment policies in Walker County generally set building assessments at 100 percent of fair market value, which may vary somewhat from construction costs for new construction. Assessed values are established at January 1 of each year. For property currently included in the TIRZ (approximately 71.35 acres), the original value was set at \$367,092. The value set for the year covered by this report was \$50,785,140, an incremental value increase of \$50,465,867. Walker County contributed \$121,319 in the tax year that includes the October 1, 2020 to September 30, 2021 fiscal year.

D. Interfund Receivables and Payables

At September 30, 2021, the interfund receivables and payables were as follows:

Due to	Due from	Amount	Purpose
General	Grants and Contracts	\$ 793,264	Short-term loan
		<u>\$ 793,264</u>	

E. Capital Assets

Capital asset activity for the year ended September 30, 2021, was as follows:

F. Long-Term Debt

Long-term liabilities applicable to the County's governmental activities are not due and payable in the current period, and accordingly, are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. Long-term bonded debt and certificates of obligation at September 30, 2021 are listed below:

Issue Description	Interest Rate	Date of Issue	Maturity Date	Original Balance	Outstanding Balance
Certificates of Obligation, Series 2012	2.00-3.75%	6/1/2012	8/1/2032	\$ <u>20,000,000</u>	\$ <u>12,435,000</u>
Total bonds payable				\$ <u>20,000,000</u>	\$ <u>12,435,000</u>

The Series 2012 certificates of obligation were issued to construct a new county jail. In FY19, the County also entered into a note from direct borrowing to finance the purchase of election equipment.

A summary of long-term liability transactions of the County for the year ended September 30, 2021, follows:

	Beginning Balance	Additions	Retirements	Ending Balance	Due Within One Year
Governmental activities:					
Certificates of Obligation	\$ 13,370,000	\$ -	\$ 935,000	\$ 12,435,000	\$ 965,000
Adjustments for:

Compensated absences	<u>1,174,303</u>	<u>1,352,204</u>	<u>1,248,692</u>	<u>1,277,814</u>	<u>319,454</u>
Total long-term debt	<u>\$ 15,069,442</u>	<u>\$ 1,352,204</u>	<u>\$ 2,415,753</u>	<u>\$ 14,005,892</u>	<u>\$ 1,510,413</u>

The funds typically used to liquidate other long-term liabilities in the past are as follows:

Liability	Activity Type	Fund
Compensated absences	Governmental	General fund and special revenue fund

Annual debt service requirements for certificates of obligations to maturity are summarized as follows:

Year Ending September 30,	Principal	Interest	Total
2022	\$ 965,000	\$ 411,818	\$ 1,376,818
2023	990,000	382,868	1,372,868
2024	1,020,000	353,168	1,373,168
2025	1,055,000	322,568	1,377,568
2026	1,085,000	289,599	1,374,599
2027-2031	5,985,000	892,031	6,877,031
2032	<u>1,335,000</u>	<u>41,163</u>	<u>1,376,163</u>
Total	<u>\$ 12,435,000</u>	<u>\$ 2,693,213</u>	<u>\$ 15,128,213</u>

Annual debt service requirements for notes from direct borrowings to maturity are summarized as follows:

Year Ending September 30,	Principal	Interest	Total
2022	\$ <u>225,959</u>	\$ <u>2,230</u>	\$ <u>228,189</u>
Total	<u>\$ 225,959</u>	<u>\$ 2,230</u>	<u>\$ 228,189</u>

The note payable is classified as a direct borrowing; however, the payment terms of the note do not differ significantly from the County’s other obligations and do not contain substantive acceleration clauses. Should the County default on its outstanding bonds or note, any registered owner of the certificates or note is entitled to seek a writ of mandamus from a court of proper jurisdiction requiring specific performance from the County.

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years. During the current year, the County does not expect to incur a liability.

G. Leases

Operating Leases

The County is a party to several lease agreements either as a lessor or lessee. The significant terms for each lease are discussed below.

Walker County Health Center (340F Highway 75 North)

The County has leased approximately 6,400 square feet in the Walker County Health Center to the Senior Center of Walker County, Inc. in exchange for providing a meal program and operating a Center for residents of Walker County that complies with the general requirements of 42 U.S.C. 3030f and 3030g, home-delivered nutrition services, under the federal Programs for Older Americans Act. The lease term is October 1, 2020 through September 30, 2021. The County provides general maintenance services to the building exterior and grounds and provides up to \$12,500 for general operating expenses.

In addition, the County allows use of office space located in the Health Center facility by the Special Prosecution Unit (SPU) - Criminal. An agency funded by state grant money, the SPU budget pays for janitorial services, insurance, and utilities at no cost to the County. The County is responsible for repairs to the facility.

Total cost of health center	\$ 250,000
Accumulated depreciation	<u>250,000</u>
Carrying cost of health center	<u>\$ -</u>
Current year depreciation	\$ -

Powell Family Home

The County leases from the Estate of Ben H. Powell III the Powell Family Home for an annual rental of \$1 for the purpose of operating a historical museum. The lease term is fifty years beginning January 1, 1984. Additional rent assessments are charged for property taxes and other costs. The County maintains and repairs the premises as well as incurs rights and obligations to operate and manage the leased premises in accordance with the provisions of the lease agreement and laws applicable to the Walker County Historical Commission.

344 Highway 75 North, Suite 300

The County leases 1,500 square feet of office space to the Walker County Community Agency (WCCA) at no charge. WCCA is responsible for all janitorial services, insurance and utilities supplied to the premises. In addition, WCCA is responsible for repairs to the facility. The lease began May 1, 2014 and shall continue until either party cancels the contract.

Total cost of building	\$	54,444
Accumulated depreciation		<u>54,444</u>
Carrying cost of building	\$	<u>-</u>
Current year depreciation	\$	-

Land Lease (one (1) acre - 340 Highway 75 North)

The County leases approximately one (1) acre to the Community Organization for Missionary Endeavor, Inc. (C.O.M.E.). The initial term will be for five (5) years, beginning September 2, 2016, and automatically renewed for a successive five-year term in 2021. A lump-sum payment of five dollars was paid to the County in 2016 and is due to the County for the subsequent lease term renewals.

H. Interfund Transactions

Interfund transfers are defined as "flows of assets without equivalent flow of assets in return and without a requirement for repayment." The following is a summary of the County's transfers for the year ended September 30, 2021:

<u>Transfers from</u>	<u>Transfers to</u>	<u>Amount</u>
General Fund	Road and Bridge Fund	\$ 1,248,486
General Fund	Walker County EMS Fund	490,696
General Fund	Grants and Contracts Fund	11,446
General Fund	Nonmajor Governmental Funds	<u>32,914</u>
		\$ <u>1,783,542</u>

Transfers made from general fund to various funds were approved by Commissioner's Court and made to supplement various projects throughout the year.

I. Fund Balances

Fund balances are presented in the following categories: nonspendable, restricted, committed, assigned, and unassigned as described in I. C. 11. The following is a detail of fund balances for all the major and nonmajor governmental funds at September 30, 2021:

	General	Debt Service	Road and Bridge	EMS	Nonmajor Governmental	Total

J. Pension Plan

1. Plan Description

The County's nontraditional defined benefit pension plan, Texas County and District Retirement System (TCDRS), provides pensions for all of its full-time employees. The TCDRS Board of Trustees is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of over nontraditional defined benefit pension plans. TCDRS in the aggregate issues an Annual Comprehensive Financial Report (ACFR) on a calendar year basis. The ACFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034 Austin, TX, 78768-2034.

All full and part-time non-temporary employees participate in the plan, regardless of the number of hours they work in a year. Employees in a temporary position are not eligible for membership.

2. Benefits Provided

TCDRS provides retirement, disability and survivor benefits for all eligible employees. Benefit terms are established by the TCDRS Act. The benefit terms may be amended as of January 1, each year, but must remain in conformity with the Act.

Members can retire at age 60 and above with 8 or more years of service, with 30 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after eight years of service but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

3. Employees Covered by Benefit Terms

At the December 31, 2020 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	250
Inactive employees entitled to but not yet receiving benefits	447
Active employees	<u>395</u>
	<u>1,092</u>

4. Contributions

The contribution rates for employees in TCDRS are either 4%, 5%, 6%, or 7% of employee gross earnings, as adopted by the employer's governing body. Participating employers are required to contribute at actuarially determined rates to ensure adequate funding for each employer's plan. Under the state law governing TCDRS, the contribution rate for each entity is determined annually by the actuary and approved by the TCDRS Board of Trustees. The replacement life entry age actuarial cost method is used in determining the contribution rate. The actuarially determined rate is the estimated amount necessary to fund benefits in an orderly manner for each participant over his or her career so that sufficient funds are accumulated by the time benefit payments begin, with an additional amount to finance any unfunded accrued liability.

Employees for the County were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rate for the County was 14.16% in calendar year 2020 and 13.93% in calendar year 2021. The County's contributions to TCDRS for the year ended September 30, 2021, were \$2,832,718, and were equal to the required contributions.

5. Actuarial Assumptions

The total pension liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50% per year
Overall payroll growth	3.00% per year
Real rate of return	5.00% per year
Investment rate of return	7.60%, net of administrative expenses

Cost-of-Living adjustments (COLA) for the County are considered to be substantively automatic. Therefore, an annual 40% CPI cost-of-living adjustment is included in the GASB calculations. No assumption for future cost-of-living adjustments is included in the funding valuation. Each year, the County may elect an ad-hoc COLA for retirees.

Mortality rates for active members, retirees, and beneficiaries were based on the following:

Depositing members	90% of the RP-2014 Active Employee Mortality Table for males and 90% of the RP-2014 Active Employee Mortality Table for females, projected with 110% of the MP-2014 Ultimate scale after 2014.
Service retirees, beneficiaries and non-depositing members	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Disabled retirees	130% of the RP-2014 Disabled Annuitant Mortality Table for males and 115% of the RP-2014 Disabled Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.

All actuarial assumptions that determined the total pension liability as of December 31, 2020, were based on the results of an actuarial experience study for the period January 1, 2013 through December 31, 2016, except where required to be different by GASB 68.

The long-term expected rate of return on pension plan investments is 7.5%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TCDRS Board of Trustees. The application of the investment return assumption was changed for purposes of determining plan liabilities at the March 2021 meeting. All plan liabilities are now valued using a 7.6% discount rate.

The long-term expected rate of return on TCDRS is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information below are based on January 2021 information for a 10-year time horizon. The valuation assumption for long-term expected return is re-assessed at a minimum of every four years, and is set based on a long-term time horizon; the most recent analysis was performed in 2021. The target allocation and best estimates of geometric real rates return for each major asset class are summarized in the following table:

Discount Rate:

The discount rate used to measure the total pension liability was 7.60%. The discount rate was determined using an alternative method to determine the sufficiency of the fiduciary net position in all future years. The alternative method reflects the funding requirements under the funding policy and the legal requirements under the TCDRS Act. TCDRS has a funding policy where the Unfunded Actuarial Accrued Liability (UAAL) shall be amortized as a level percent of pay over 20-year closed layered periods. The employee is legally required to make the contribution specified in the funding policy. The employer's assets are projected to exceed its accrued liabilities in 20 years or less. When this point is reached, the employer is still required to contribute at least the normal cost. Any increased cost due to the adoption of a COLA is required to be funded over a period of 15 years, if applicable. Based on the above assumptions, the projected fiduciary net position is determined to be sufficient compared to projected benefit payments. Based on the expected level of cash flows and investment returns to the system, the fiduciary net position as a percentage of total pension liability is projected to increase from its current level in future years.

Since the projected fiduciary net position is projected to be sufficient to pay projected benefit payments in all future years, the discount rate for purposes of calculating the net pension liability and net pension liability of the employer is equal to the long-term assumed rate of return on investments. This long-term assumed rate of return should be net of investment expenses, but gross of administrative expenses for GASB 68 purposes. Therefore, a discount rate of 7.60% has been used. This rate reflects the long-term assumed rate of return on assets for funding purposes of 7.50%, net of all expenses, increased by 0.10% to be gross of administrative expenses.

6. Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued TCDRS financial report.

⁽²⁾ Reflects that COLA adopted in 2021 was less than the assumed substantively automatic COLA.

⁽³⁾ Relates to allocation of system-wide items.

In the governmental activities, the net pension liability is typically liquidated by the General Fund.

Sensitivity Analysis:

The following presents the net pension liability of the County, calculated using the discount rate of 7.60%, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.60%) or 1-percentage-point higher (8.60%) than the current rate.

	1% Decrease 6.60%	Current Discount Rate 7.60%	1% Increase 8.60%

7. Pension Expense and Deferred Outflows of Resources Related to Pensions

For the fiscal year ended September 30, 2021, the County recognized pension expense of \$3,824,638.

At September 30, 2021, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 191,347	\$ 110,368
Changes of assumptions	4,842,817	-

K. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

1. Plan Description

The County sponsors a retiree health care plan, considered a substantive plan, for qualifying employees and elected officials. Permanent full-time employees and elected officials of the County who were hired before October 1, 2013 and are retiring under TCDRS with 20 consecutive years of service, are eligible to participate in the retiree health care plan, a single employer plan, with the cost paid by the County until the retiree becomes eligible for Medicare. The County will then pay the premium for a Medicare supplement policy. The retiree pays Medicare Part B premiums.

Permanent full-time employees and elected officials of the County who retire that were hired prior to October 1, 2013 and meet one of the following criteria 1) 8 years of continuous service and are at least 60 years of age; 2) age plus years of service equals 75; or 3) 20 non-consecutive years of service, may continue their coverage until the retiree becomes eligible for Medicare under the County's medical insurance program for themselves and their eligible dependents by paying the total premium.

Dental benefits are also provided with the retiree paying 100% of the required contribution.

2. Funding Policy

The County has elected to fund the retiree health care benefits using the pay-as-you-go method. Thus, the County's annual contribution for these benefits is assumed to be equal to the actual disbursements during the year for health care benefits for retired employees. This method of funding will result in increasing contributions over time. Per capita cash disbursements will tend to increase from year to year as the cost of health care services, or the utilization of these services increase.

During the 2018 fiscal year, the County established the Retiree Health Insurance Fund, an internal service fund. The purpose of this fund is to gradually accumulate the assets necessary to meet future obligations related to the retiree health care plan. The fund will help maintain a balance of fiscal responsibility on a yearly basis with having assets necessary to meet future obligations. However, these assets do not meet the criteria as an irrevocable trust and, as such, the plan has no assets accumulated in a trust that meets the criteria under GASB Statement No. 75, Paragraph 4.

3. Benefits Provided

The County pays the health care premiums for permanent full-time employees and elected officials of the County who were hired before October 1, 2013 and are retiring under TCDRS with 20 consecutive years of service until the retiree becomes eligible for Medicare. The County will then pay the premium for a Medicare supplement policy. The retiree pays Medicare Part B premiums.

Permanent full-time employees and elected officials of the County who retire that were hired prior to October 1, 2013 and meet one of the following criteria 1) 8 years of continuous service and are at least 60 years of age; 2) age plus years of service equals 75; or 3) 20 non-consecutive years of service, may continue their coverage until the retiree becomes eligible for Medicare under the County's medical insurance program for themselves and their eligible dependents by paying the total premium.

Dental benefits are also provided with the retiree paying 100% of the required contribution.

At the September 30, 2020 valuation and measurement date, the following individuals were covered by the benefit terms:

	Single Only	Dependent Coverage
Active	89	62
Retired	12	4
Total	101	66

4. Total OPEB Liability

The County's Total OPEB liability of \$22,051,307 was measured as of September 30, 2021 and was determined by an actuarial valuation as of September 30, 2020 using the Entry Age Normal Cost Method - Level Percentage of Projected Salary actuarial method.

5. Actuarial Assumptions

The total OPEB liability in the September 30, 2020 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.50% per year
Salary scale	3.50%
Mortality table	RPH-2014 Total Table with Projection MP-2019
Discount rate	2.25% (-.25% real rate of return plus 2.50% inflation)
Disability	None assumed
Health care cost trend	Level 4.50%

Since there are no assets held in trust, the discount rate was based on the Bond Buyer GO-20 bond index. At the time of the valuation, the rate was trending towards 4.50%. The discount rate selected for the valuation was 2.25%.

6. Changes in Total OPEB Liability

	<u>Total OPEB Liability</u>
Balance at 10/01/2020	\$ 20,947,733
Changes for the year:	
Service cost	840,963
Interest on the total OPEB liability	487,713
Differences between expected and actual experience	-
Changes in assumptions	-
Benefit payments	(225,102)
Net changes	<u>1,103,574</u>
Balance at 09/30/2021	<u>\$ 22,051,307</u>

7. Sensitivity of the Total OPEB Liability to Changes in the Discount Rate and Trend Rate

The following present the total OPEB liability of the County, calculated using the discount rate of 2.25%, as well as what the County's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.25%) or 1-percentage-point higher (3.25%) than the current rate:

	<u>1% Decrease in Discount Rate (1.25%)</u>	<u>Discount Rate (2.25%)</u>	<u>1% Increase in Discount Rate (3.25%)</u>
County's total OPEB liability	\$ 26,816,892	\$ 22,051,307	\$ 18,357,723

The following present the total OPEB liability of the County, calculated using the trend rate of 4.50%, as well as what the County's total OPEB liability would be if it were calculated using a trend rate that is 1-percentage-point lower (3.50%) or 1-percentage-point higher (5.50%) than the current rate:

	<u>1% Decrease (3.50%)</u>	<u>Current Trend Rate (4.50%)</u>	<u>1% Increase (5.50%)</u>
County's total OPEB liability	\$ 17,610,945	\$ 22,051,307	\$ 28,071,162

8. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended September 30, 2021, the County recognized OPEB expense of \$1,540,092.

At September 30, 2021, the County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ -	\$ 786,922
Changes in actuarial assumptions	<u>2,266,828</u>	<u>-</u>
Total	<u>\$ 2,266,828</u>	<u>\$ 786,922</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

For The Year Ended September 30,	
2022	\$ 211,416
2023	211,416
2024	211,416
2025	211,416

Thereafter	422,826

L. Commitments and Contingencies

Contingencies

The County participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the County has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable may be impaired. In the opinion of the County, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

Litigation

The County is contingently liable with respect to lawsuits and other claims in the ordinary course of its operations. The settlement of such contingencies under the budgetary process would not materially affect the financial position of the County as of September 30, 2021.

M. Risk Management

The County is exposed to various risks of losses related to torts, theft of, damage to and destruction of capital assets; errors and omission; injuries to employees; and natural disasters. The County participates in the Texas Association of Counties Risk Management Pool ("the Pool") created by interlocal agreement to enable its members to obtain coverage against various types of risk. The Pool is administered by the Texas Association of Counties (TAC). Through this pool, the County obtains general liability, property, public officials' liability, law enforcement professional liability, auto physical damage, auto liability, and workers' compensation coverage. The County also participates in the Texas Association of Counties Health and Employee Benefits Pool administered by TAC. The County contributes a minimum of \$727 per month for each employee who elects medical coverage. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for any of the past three fiscal years.

N. Joint Venture

On July 29, 1997, the County entered into an interlocal agreement with the City of Huntsville, Texas to construct, maintain, and operate a centralized and combined communications/dispatch center, hereafter called Walker County Public Safety Communication Center ("WCPSCC"). The County and the City have both agreed to fund 50% of the approved budget of the WCPSCC. Should this agreement be terminated, or declared invalid for any reason, all assets of the WCPSCC shall be determined and deemed to be jointly owned by the County and the City. This agreement was initially effective for three years beginning October 1, 1997 and from that point the agreement would automatically renew for successive one-year terms unless otherwise terminated. For the year ended September 30, 2021, the City and County each paid \$819,788 for their shares of WCPSCC's operating costs.

The County acts as the fiscal agent of the WCPSCC. It controls the assets and accounts for all receipts and disbursements the WCPSCC engages in. However, the joint venture does not meet the criteria to be a component unit of the County, and accordingly it has been reported as a custodial fund in the fiduciary fund financial statements. An equity interest in joint venture has not been recorded because doing so would duplicate net position in the government-wide and fiduciary fund financial statements. The fiduciary fund statements reflect that the net position is restricted 50% to each party.

O. Prior Period Adjustment

In the implementation of GASB Statement No. 84 relating to the presentation of fiduciary activities, the County adjusted the beginning net position of the custodial funds and the beginning fund balance of the non-major special revenue fund, Sheriff Commissary. The beginning balance of the custodial fund was established to be \$3,352,692, being presented as a prior period adjustment in the Statement of Changes in Fiduciary Net Position. Some activities that were previously recorded in the custodial funds were determined to have significant administrative involvement by County staff and recorded in the Sheriff Commissary special revenue fund, causing a prior period adjustment of \$116,908.

P. New Accounting Pronouncements

Significant new accounting standards released by the Governmental Accounting Standards Board (GASB) that are effective for future fiscal years include the following:

Statement No. 87, *Leases* – This statement changes the recognition requirements for certain lease assets and liabilities for leases that are currently classified as operating leases. This statement will become effective for the County in fiscal year 2022.

Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* – The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. This statement will become effective for the County in fiscal year 2023.

Statement No. 96, *Subscription-Based Information Technology Arrangements* – This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset-an intangible asset-and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. This statement will become effective for the County in fiscal year 2023.

(1) Payroll is calculated based on contributions as reported to TCDRS.

Note: This schedule is required to include 10 years of information, but information prior to 2014 is not available.

Notes to Schedule:

Valuation Date	Actuarially determined contribution rates are calculated each December 31, two years prior to the end of the fiscal year in which contributions are reported.
Actuarial Cost Method	Entry age
Amortization Method	Level percentage of payroll, closed
Remaining Amortization Period	20.0 years (based on contribution rate calculated in 12/31/2020 valuation)
Asset Valuation Method	5-year smoothed market
Inflation	2.50%
Salary Increases	Varies by age and service. 4.6% average over career including inflation.
Investment Rate of Return	7.5%, net of administrative and investment expenses, including inflation.
Retirement Age	Members who are eligible for service retirement are assumed to commence receiving benefit payments based on age. The average age at retirement for recent retirees is 61.
Mortality	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Changes in Assumptions	2015: New inflation, mortality and other assumptions were reflected. 2017: New mortality assumptions were reflected. 2019: New inflation, mortality and other assumptions were reflected.
Changes in Plan Provisions	2015: Employer contributions reflect that a 40% CPI COLA was adopted. 2016: Employer contributions reflect that a 40% CPI COLA was adopted. 2017: Employer contributions reflect that a 40% CPI COLA was adopted. Also, new Annuity Purchase Rates were reflected for benefits earned after 2017. 2018: Employer contributions reflect that a 40% CPI COLA was adopted. 2019: Employer contributions reflect that a 40% CPI COLA was adopted. 2020: Employer contributions reflect that a 40% CPI COLA was adopted.

Notes:

(1) Debt Outstanding provided by the Taxing Jurisdiction

(2) All entities listed above are within the boundaries of Walker County. Thus, 100% of the debt of these governmental units is included in the estimated share of overlapping debt calculation.

(3) Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the county.

This schedule estimates the portion of the debt of these entities that is borne by the residents and businesses of Walker County. This process recognizes that, when considering the government's ability to issue debt and repay long term debt, the entire debt cost borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

SINGLE AUDIT SECTION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Honorable County Judge
and Commissioners' Court of Walker County
Huntsville, Texas

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Walker County, Texas as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise Walker County's basic financial statements, and have issued our report thereon dated March 17, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Walker County, Texas' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Walker County, Texas' internal control. Accordingly, we do not express an opinion on the effectiveness of Walker County, Texas' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Walker County, Texas' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH
MAJOR FEDERAL AND STATE PROGRAM AND REPORT ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE
AND THE STATE OF TEXAS UNIFORM GRANT MANAGEMENT STANDARDS

Honorable County Judge
and Commissioners' Court of Walker County
Huntsville, Texas

Report on Compliance for Each Major Federal and State Program

We have audited Walker County, Texas' compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the State of Texas *Uniform Grants Management Standards* that could have a direct and material effect on each of Walker County, Texas' major federal and state programs for the year ended September 30, 2021. Walker County, Texas' major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Walker County, Texas' major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the State of Texas *Uniform Grant Management Standards*. Those standards, the Uniform Guidance, and the State of Texas *Uniform Grant Management Standards* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about Walker County, Texas' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of Walker County, Texas' compliance.

Opinion on Each Major Federal and State Program

In our opinion, Walker County, Texas, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended September 30, 2021.

Report on Internal Control Over Compliance

Management of Walker County, Texas is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Walker County, Texas' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and the State of Texas *Uniform Grant Management Standards*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Walker County, Texas' internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the State of Texas *Uniform Grant Management Standards*. Accordingly, this report is not suitable for any other purpose.
